

Spiritual Sensitivity

The Lord has given us senses which makes us responds to our environment, making us feel more alive, which keeps us from danger and make us aware of ourselves. Just as most of us, our senses works fine, still, there is a sense that has been locked away in the lives of many.

" The sense of spirituality " of the spirit man. whatever happens in the physical has already transpired in the spiritual, how then can you maintain and prevent yourself from an impending danger and at worst eternal danger if your spiritual senses are dead.

All humans are immortal, and scientist are still foolishly searching for immortality when the main man indeed is immortal, the only difference is, because the main man is wearing a machine and when that machine stop functioning it releases the soul to were he'll spend his eternity. It's just like an astronaut who needs a space suite to survive in space, when he comes back to earth and takes of his space suite, he's still the same man, only that he has come to his original place. So is man, where you spend your eternity has already begun spiritually here on earth, the only difference is that; while you're here you have the choice to change your destination.

For a man to know and to keep his spirit man safe, he must be sensitive spiritually. We are in flesh and as long as we're not converted to be spiritual how then can we know the state of the soul which we cannot so easily see. If an ungodly man is blind spiritually how can he see to know he's in sin or in the wrong path, if he's deaf spiritually how can he hear of spiritual things, if he's dumb spiritually how can you speak of God, if he doesn't have a spiritual brain how can he recall spiritual thing like revelations, if he's dead spiritually how then can he sense spiritual feeling.

I will ask a question, how many of you have tasted sin? If only you know how dirty, bitter and disgusting sin is I tell you, you won't eat of it, just as you won't eat garbage physically so it is not normal to eat such spiritually. It is, because sin has made men unspiritual that's why they still drink the dirty water of sin and eats it's rotten flesh.

The Lord showed in a revelation, I bought a food like barbequed beef from the seller, I gave him cash, it looked fresh on the outside but when I tasted it, it was so bitter and disgusting that even in the physical I could feel how it tasted in the spiritual, I gave it back to him and said in anger:

" keep your money I don't need it. "

This is what many are eating today, but, because sin has blocked their sensitivity to the spiritual they continue in their sin, though appetizing on the outside but bitter and poisonous in the inside: the Lord said in Proverb 5:3

" For the lips of an adulteress drips honey, and her speech is smoother than oil, but in the end she is bitter as gall. "

It takes the wisdom of the holy spirit to understand the proverbs, for he is the spirit of wisdom. You now see one of the benefits of having the holy spirit.

Here, the adulteress is the spirit of sin, a man who falls to sin is an adulterer, because he is married to Jesus originally. If he commits adultery with another woman, he has sinned against God, because he has defiled himself with sin. It could be an adultery spirit of stealing, anger whatsoever. The spirit of sin that seduced him is the adulteress and he is the adulterer. It is broader than this, but I'll stop here.

The fruits of sin is sweet to the flesh like honey to the lips. And the spirit of sin seduces with a smooth tongue, leading one to sin if he's not wise. It is a professional seducer, a professional con artist, that flows like oil. But the end result of sin, though sweet, is poison and eventually death.

What is it you think is sweet to you, but in reality bitter and deadly to your soul, you think it sweet, because you're dead spiritually, is it fornication, masturbation that has captured a huge percentage of youth, even some who call themselves pastor, and church names and titles, because of their status they can't fornicate, and so die in masturbation in the secret. What is it? Is it stealing, lying, cheating, anger, drunkenness, smoking, orgies, partying, engaging in all sort of worldliness, glorifying the devil in his songs, insulting God that he didn't create you well. How many sin shall you commit, how long shall you continue in your sin, this evil generation.

While you're at it now, it is pleasurable, but a time is coming and will soon come when the flesh will be put aside and all your pleasure will fade away like a dream then, you'll be awakened to reality when you're in hell. You know this life is like a dream, how you lived your life in your dream affects reality, if you live in pleasures of sin, of the world and of the flesh, when you awaken you'll find yourself in hell only begging and wanting to go back to your dream, all your achievement, certificates, memories made, pictures taken, treasured stored, all vanity. It's like a child who finds himself pouring water into a bucket in a dream and then, in reality he peed on himself, a dire situation, so it is with sinners and their destination.

Today everybody is a Christian, some will go to the extent to say in their social media status "God is with me," but still you'll see them outside with their lover, no! let's stop coating it with English and say it raw, "sex partner in sin."

I saw a girl recently, well I already knew she's far gone, a time she was opposing God's word and telling me I'm not born again that people like me will be the one to drag people down to hell, well she who was talking and calling herself born again. I saw her standing like a harlot with her partner in crime while she was supposed to be at home. She's a student actually, later she'll say the lecturer is wicked when she can't answer her examination questions. All the time she was supposed to use in study were wasted in sin not even for God, but for the devil. And the devil will so deal with the sinful in the end with pleasure.

The word of God will always be preached and those in evil will continue in their evil, but if you're not ready to change, you who God has called and is calling, will be replaced with stones, that is; you'll be replaced with someone else you never

thought could be restored.

The kingdom of God is spiritual, and our invitation is the spirit of Christ, it is our spiritual clothing. If you don't have this spirit (the holy spirit) you go nowhere. And let me tell you salvation is at the end, if you like confess Jesus, if you don't pay the price and carry your cross, suffering the flesh spending time with God to be given this spirit of Christ you cannot be identified by Jesus. All Jesus did, all is suffering is an illustration of what a man born again should go through. Jesus already paid the price, now do the rest, unless you suffer the flesh, denying it of its sinful pleasures, sanctifying your heart purging it of all evil you cannot walk with Jesus.

The holy spirit sanctifies our heart to live a life without sin naturally, but you cannot have him if you don't have the word. To walk with Jesus is suffering and discomfort to the flesh but at the same time it is interesting and fulfilling to the spirit of Christ in those who are of Him.

It is only those who are sensitive to the spirit, that can feel and have the spiritual hunger for Christ, the spiritual stomach that rumbles for Christ. Sin has caused a huge vacuum in a man, but when a man is born again, there is a hunger that desires this vacuum to be filled with the word of God to give birth to the Jesus in man born again in the holy ghost. If you like go to church, involve in church activities, if this hunger given by the holy spirit is not there, know you're not born again, your pastor might not tell you this, but I'll always speak the truth, for the word of God is truth, sharper than two edged sword.

There is vacuum that has been left in our spirit man because of sin, come back to Jesus and feel that vacuum though his word, because very soon It'll be too late.

God is wrapping up His gospel business here in Earth, any moment from now when He has gathered His elect, He'll come for His own. That's why no one knows the hour only the time interval, He is the one that shows it to us, and He won't do anything without letting his children know. It is only those who are in the house that knows what's going on within the house.
