Vijaykar's theory of miasms

- To survive a cell responds in three ways to any injury, invasive or irritating force.
- Physiological defence -Inflammation - Psora
- Morphological defence -Constructive(Induration) - Sycosis
- Morphological defence - Destructive(Necrosis) - Syphillis

© 2008 Shilpa Bhouraskar

Dr Vijaykar's concepts of sycosis

- Constructive defence response of any cell to injury
- Sycosis excess – Hypertrophy, warts, polyps, skin tags.Hypercholesterol, hyperproteinemia, ketosis, hyperglycemia(diabetes), hypernatremia(swellings, oedema, anasarca, blisters), hyperkalemia, hypercalcemia(stones),increased fibrin(hardness, fibrosis, induration), increased elastin(constriction, stricture stenosis), hypermelanin(black pigmentation), Excess Fe(hemosiderosis)

© 2008 Shilpa Bhouraskar

Sycosis concept contd

- Sycosis less – Hypolipedemia, Hypoproteinemia, less fibrin(dilatation of organs), less elastin(Laxity of muscles), tendons, hypocalcemia(osteoporosis), reduced melanin(hypopigmentation), anaemia.

Physical structure

- Sycosis excess – Rounded contours, fat, flabby, prominent bones, large nose.
- Sycosis less -Small built, short structure, short bones, small nose.

© 2008 Shilpa Bhouraskar

Sycosis excess mentals

- Expression- Overexpression, loquacity, overexaggerating symptoms and flatterers.
- Will -Dominating,defiant, obstinate, acheivers with excess desires, greed and selfishness.
- Intellect -Quickness of perception, analysis and theories with slyness - pirates
- Morals -lying, stealing.
- Emotions – anguish, definate fears with fixed ideas, excessive laughter, anger easy, tantrums when opposed, selfish love.

© 2008 Shilpa Bhouraskar

Sycosis less mentals

- Underexpression, talk indisposed to, secretive, reserved.
- Underwilled, cowardice, compromise easily,
- Slow intellect
- Underexpression of emotions, quiet, reserved, introverted, solitude, hate coming into limelight because they have something to hide(guilt, dissapointment), silent grief, unexpressed love, stiff, never laugh freely.
- Moral feeling want of.

Sycotic theme - Sankaran

- Something is wrong, abnormal, faulty, weak with me..
- Attempt to cover, hide, avoid, escape it.

© 2008 Shilpa Bhouraskar

Sycotic Personality

- Secretive
- Hide their weakness
- Fixed habits to cover up weakness eg lying, egotism, fastidiousness, compulsive acts
- Never hoping to get rid of weakness so copes in a way that no one knows
- Constantly tensed with efforts to cover up
- Closed during interviews

© 2008

Physical state and pathology - Sankaran

- Hyperreaction due to specific weakness within the body (Psora hyperreaction to every trifle in environment and struggles)
- Slow troubles which are at specific sites and organs. Incidious onset, Steady course.
- Overgrowths, hyperimmune responces
- Fixed steady disease states. Eg warts, polyps, Rheumatoid arthritis.
- Indelible stains.
