

Determining the Effect of Textual Aids Like Advance Organizers, Titles, Non- linear Illustrations, etc. on the Understanding of a Text

Quarter 1 - Module
2

Objective S

- This module contains and focuses on one lesson namely, determining the effect of textual aids like advance organizers, titles, non-linear illustrations, etc. on the understanding of a text.

At the end of this module, you are expected to:

1. identify different types of textual aids;
2. use various types of textual aids on interpreting and understanding the text; and
3. show appreciation on the value of resourcefulness.

What I
Know

Answer **PRE - TEST**
in your **ANSWER**
SHEET

What's in

- In the previous lesson, you have learned the effective ways on getting information from news reports, speeches and other informative talks in everyday conversations and exchanges. These informative materials will improve your way of giving responses and reasoning. It will also help you identify facts from fallacies and opinion.

WHAT I KNOW ABOUT COVID-19 PANDEMIC

1.

2.

Share some information about COVID-19 Pandemic based from the information that you have gotten from news reports and other informative talks.

What's New

Answer

PROCESSING
QUESTIONS

We, Filipinos are known to be as pliant as a bamboo. No matter what circumstances life may bring, we are still able to cope with it through our determination and resourcefulness. This Filipino spirit is evident most especially now that we are in one big fight with the pandemic.

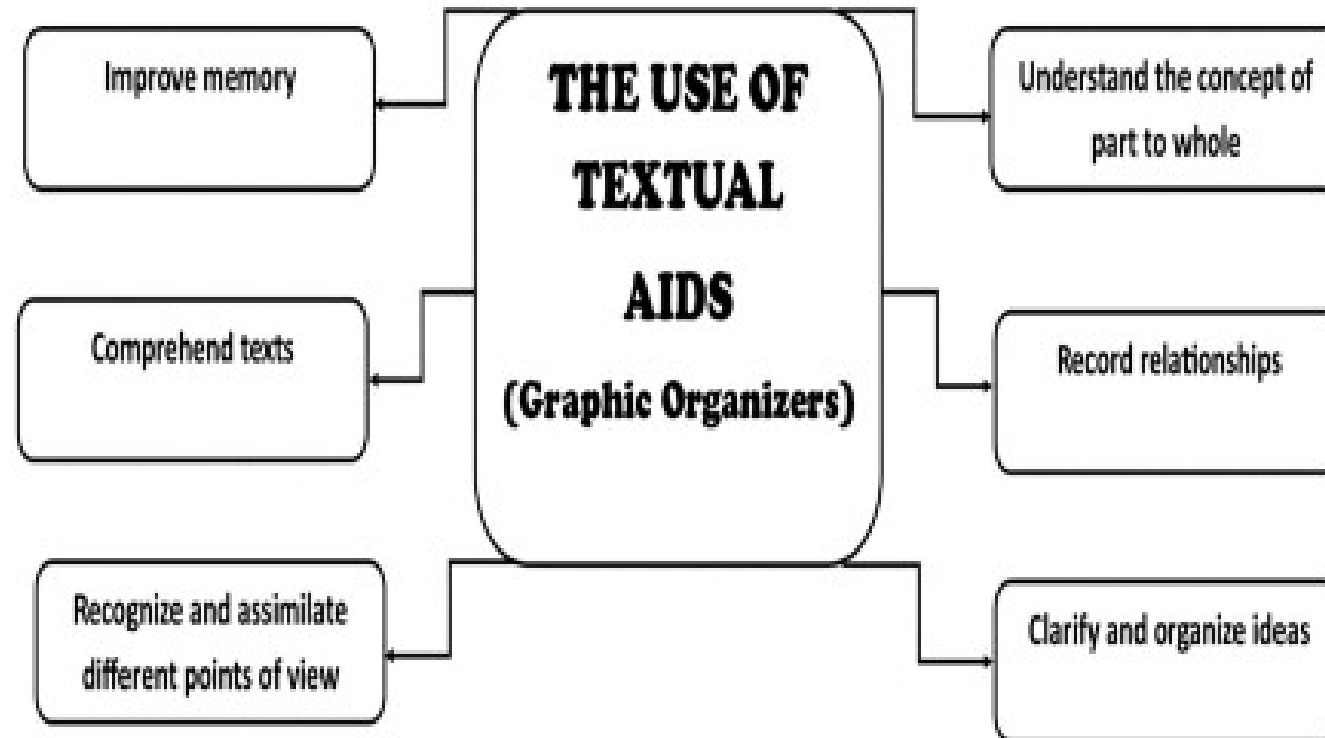

Read the news story below and see how the Quetulio family faced the challenges brought by the Corona Virus.

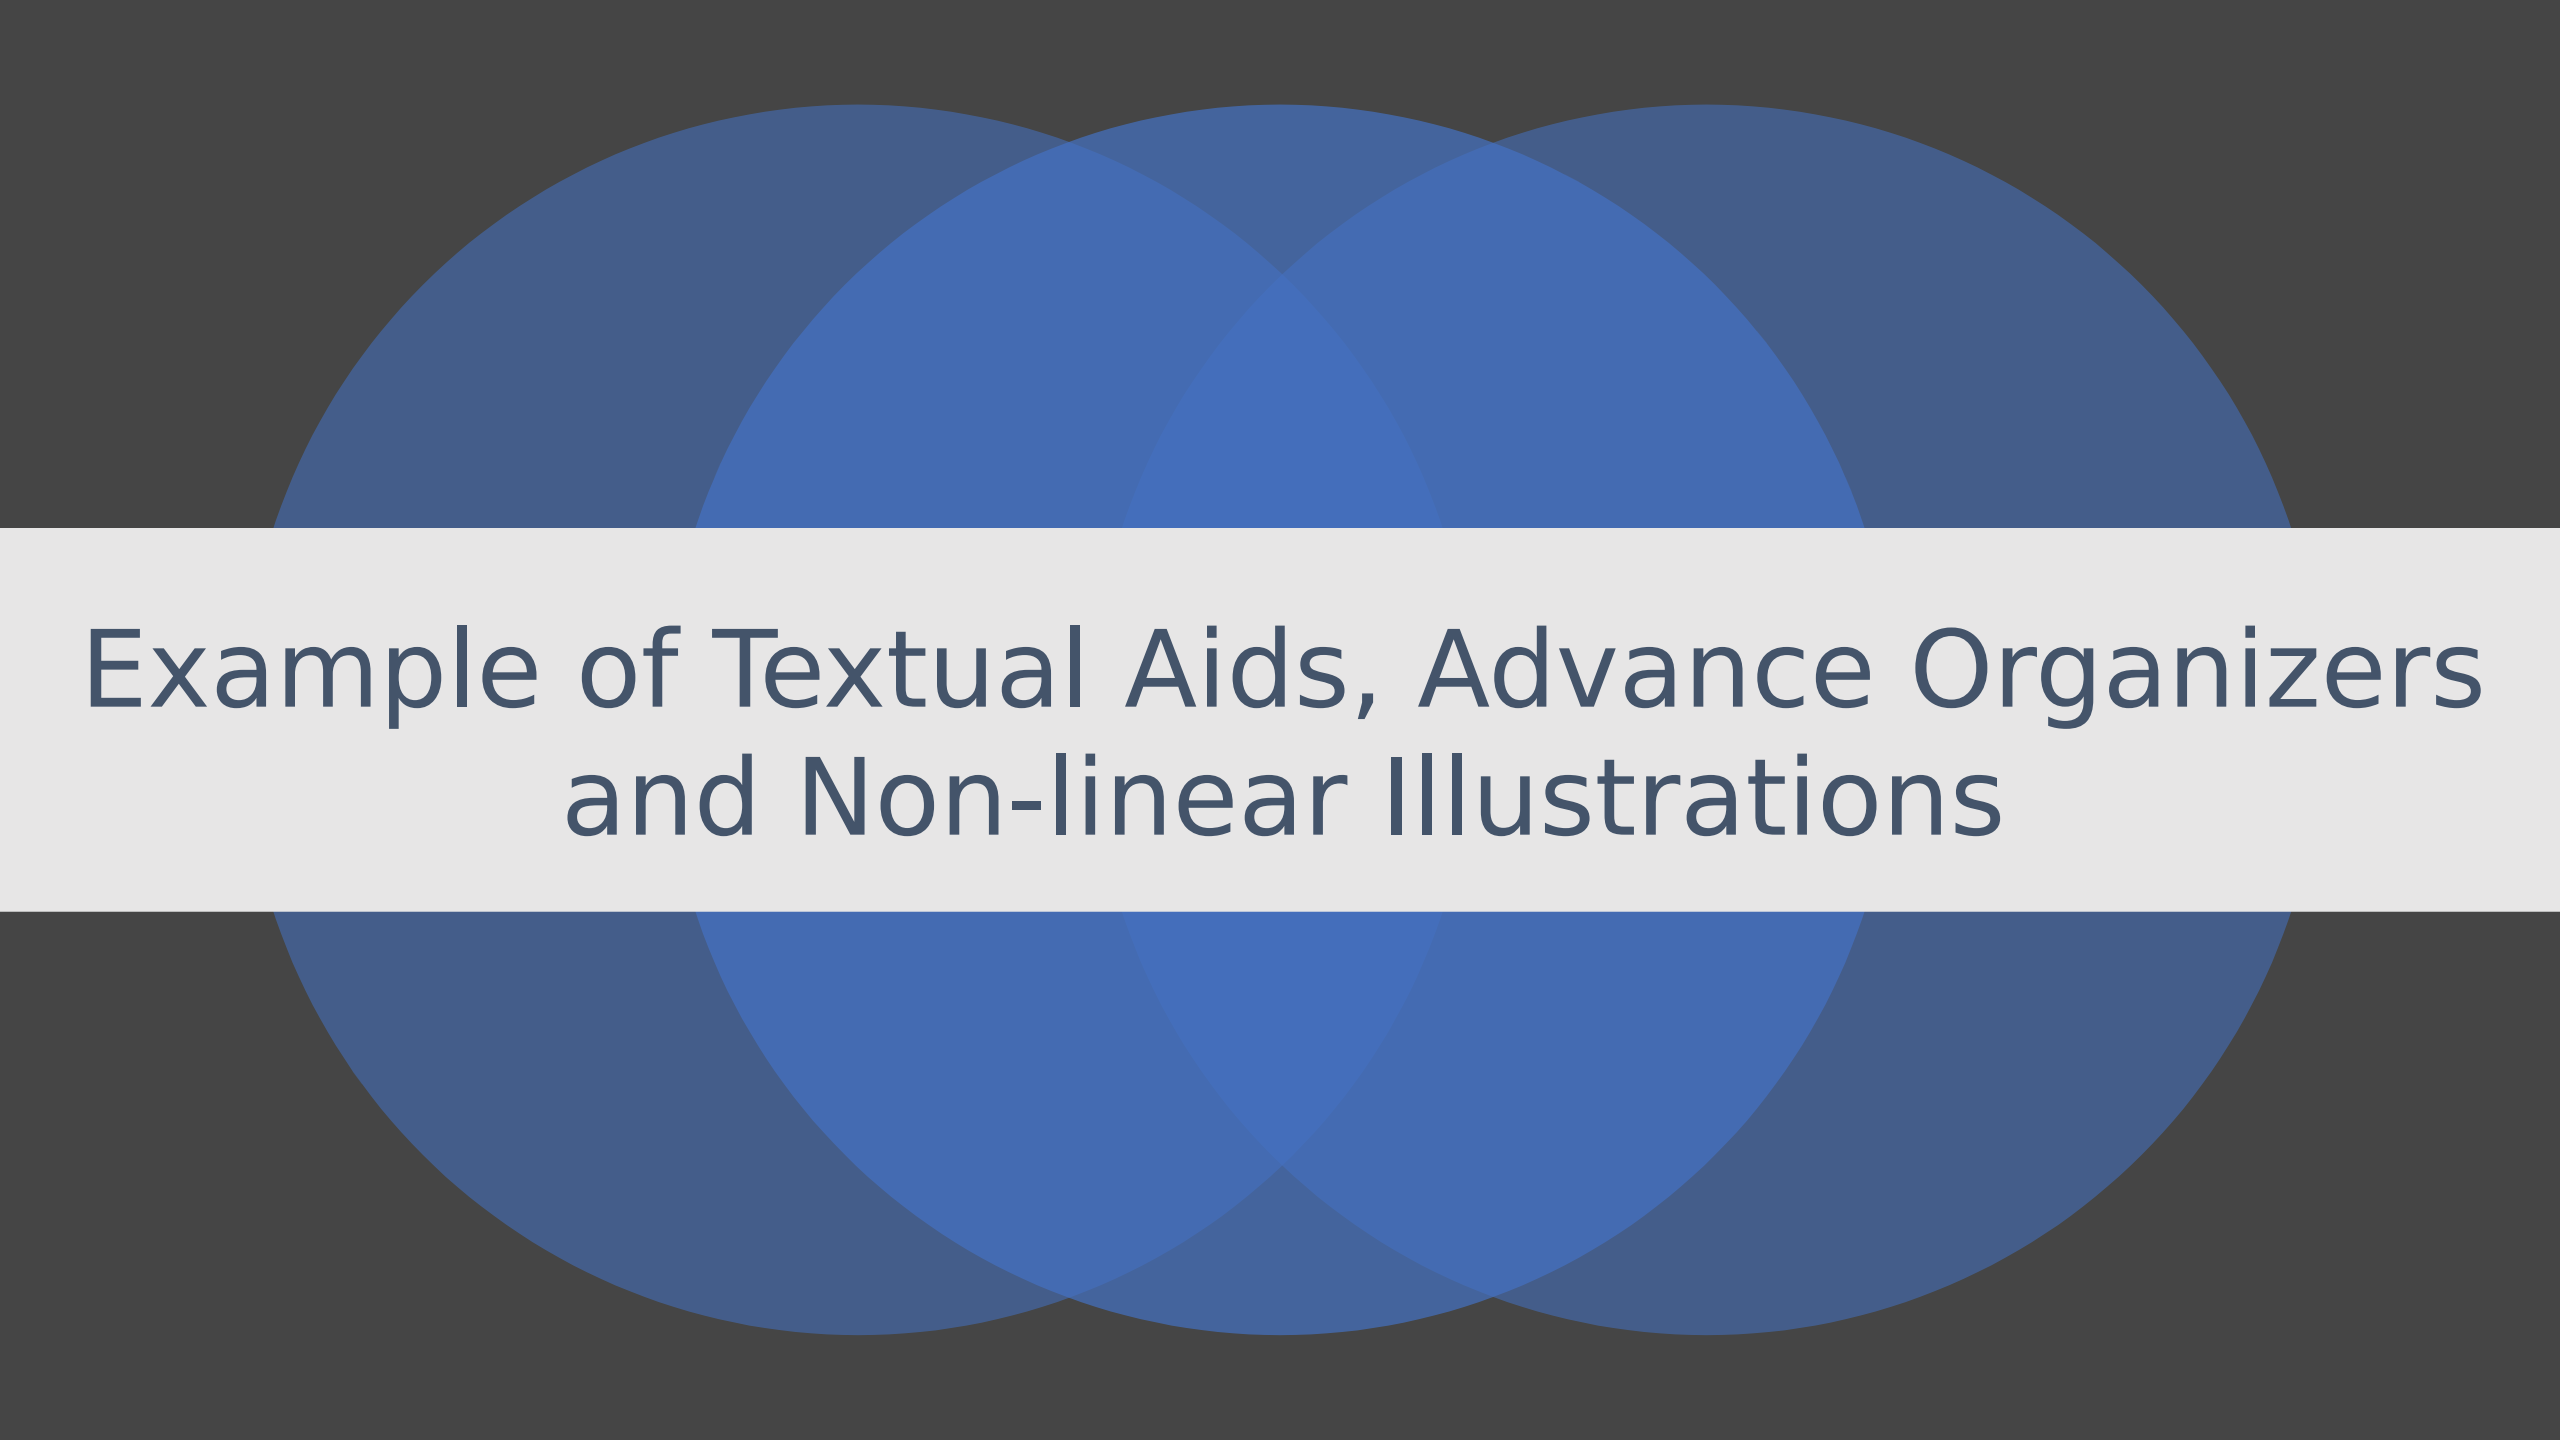

What Is It

Do you sometimes find it difficult to recall and organize important ideas you have learned after reading a text? What do you do in order to remember them all?

Textual aids like advance organizers, diagrams and illustrations are effective tools that you can use to retain information, organize and represent complex ideas in a visual manner. Their main function is to help present information in concise ways that highlight the organization and relationships of concepts.

Textual Aids

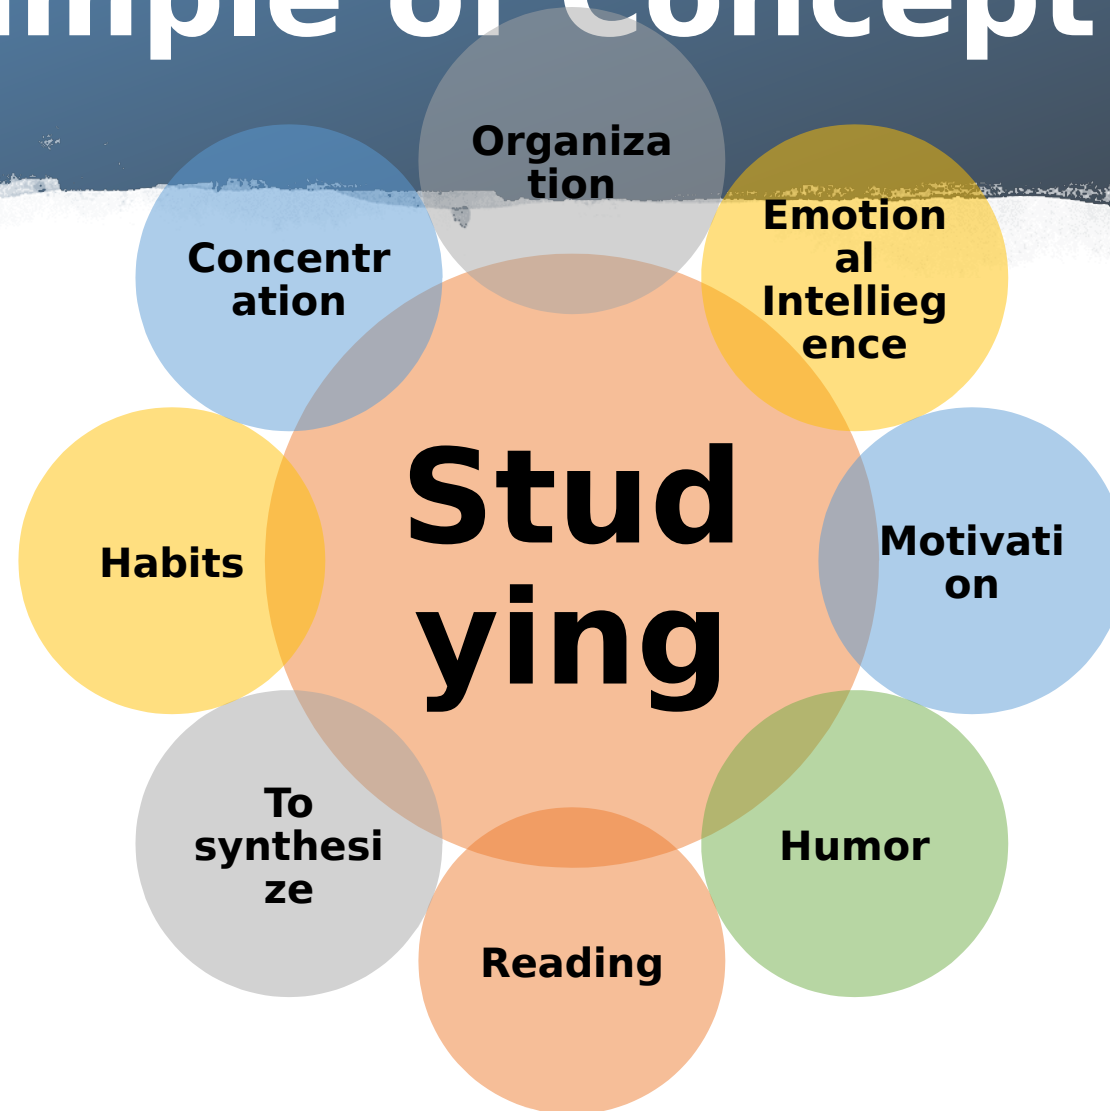

Example of Textual Aids, Advance Organizers and Non-linear Illustrations

Concept Map

A general organizer that shows a central idea with its corresponding characteristics.

Concept maps can take many different shapes and can be used to show any type of relationship that can be labeled.

Example of Concept Map

Flow Chart or Sequence Chart

A flow diagram or sequence chart shows a series of steps or events in the order in which they take place.

It is an excellent tool for showing the steps necessary to reach a final point.

Example of Flow Chart or Sequence Chart

Printing of

Sorting of
Modules

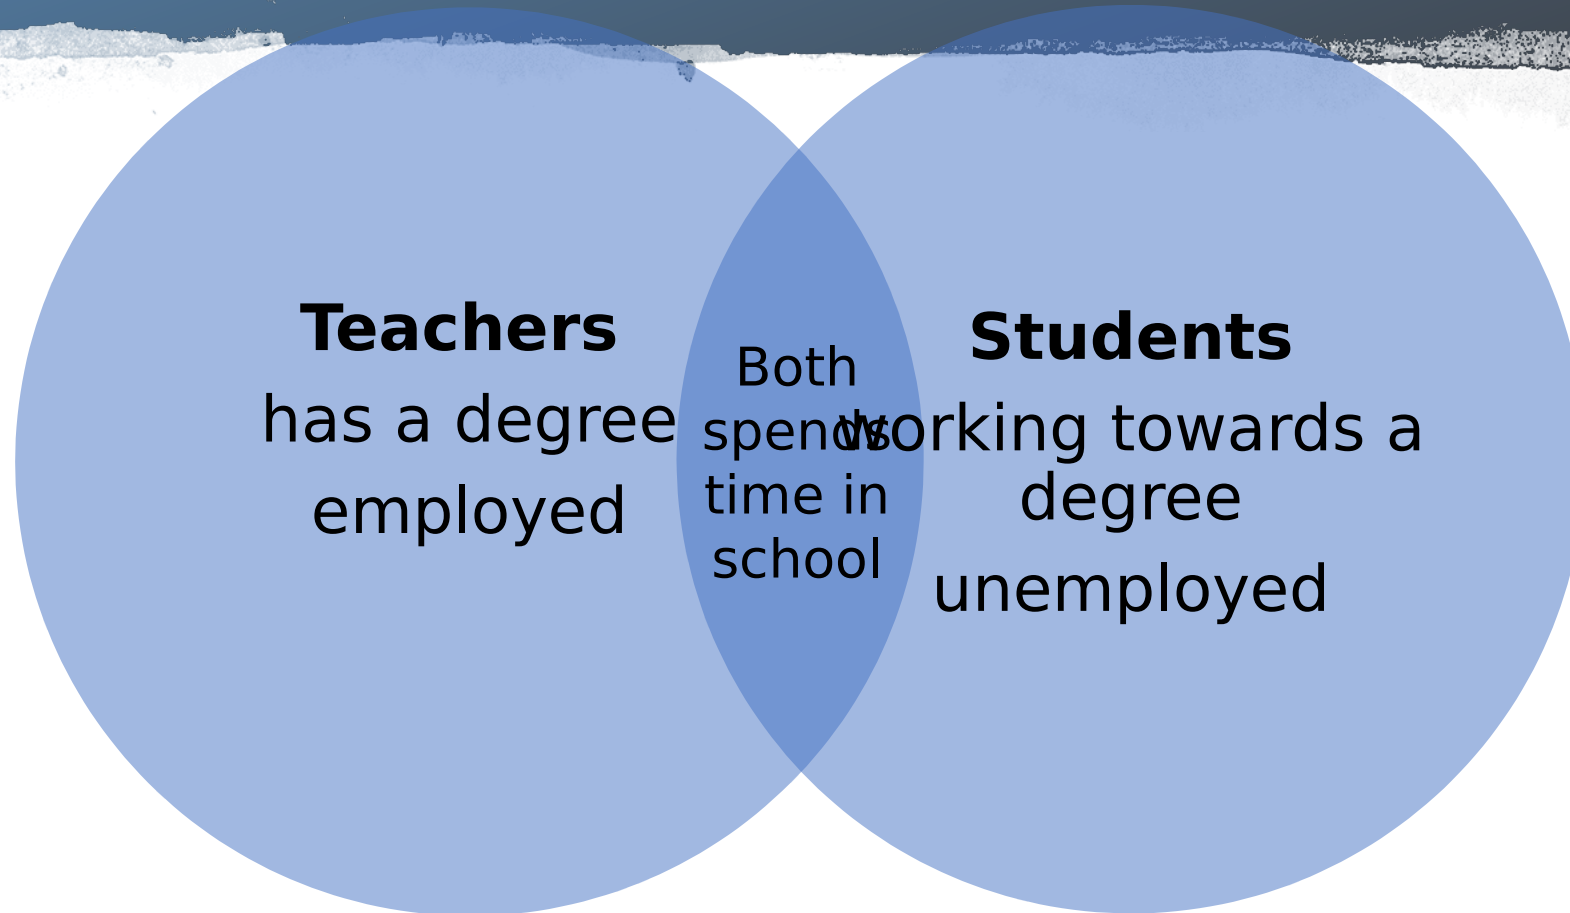

Retrieval of
Modules

Distributio
n of
Modules

Compare/Contrast or Venn Diagram

It is used to identify the similarities and differences between two or more concepts.

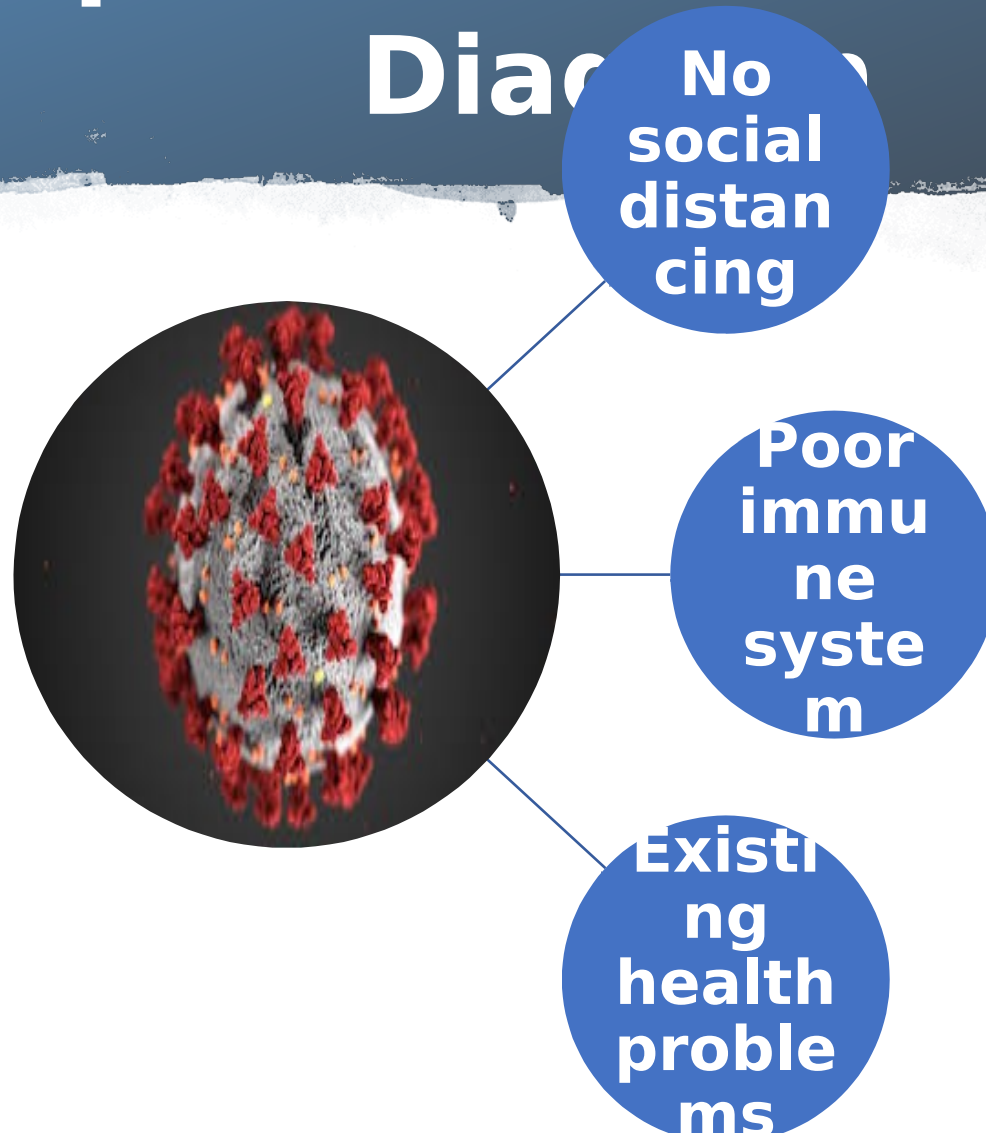

Example of Venn Diagram

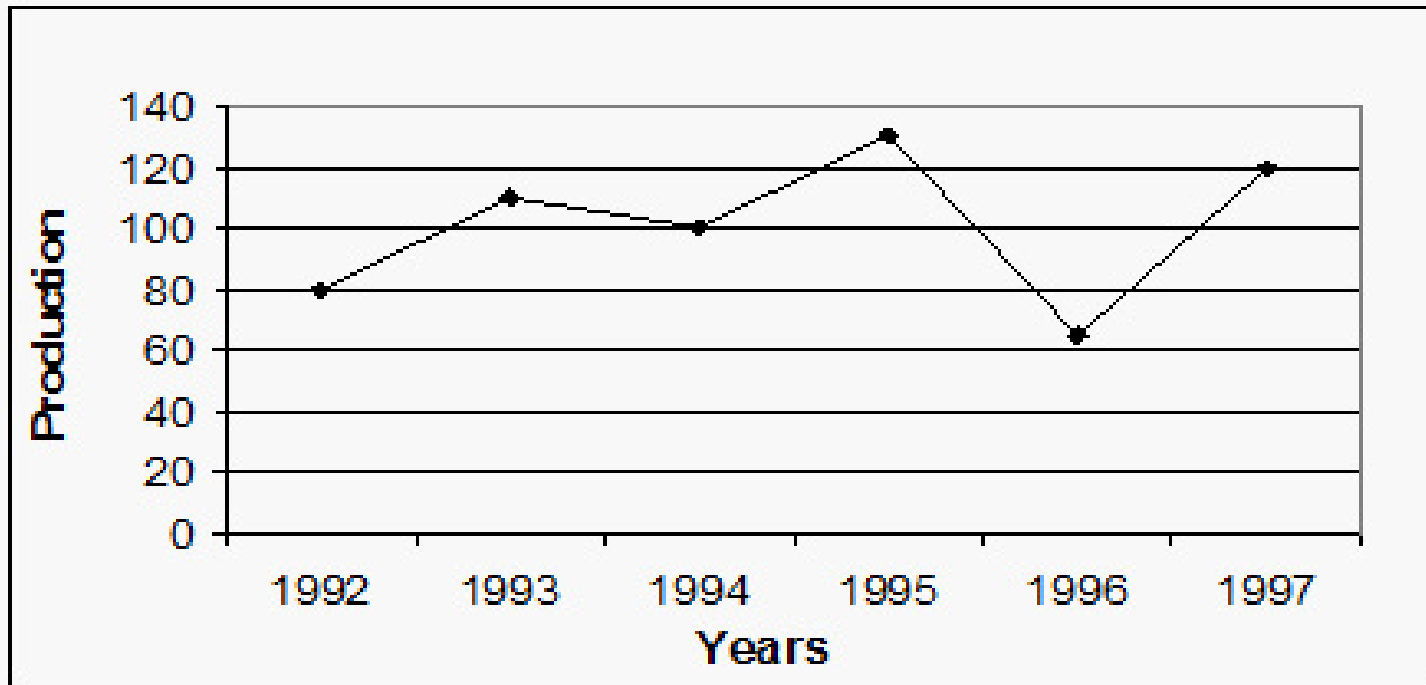

Cause and Effect Diagram

It highlights
the direct
relationship
between
different
events or
concepts.

Example of Cause-and-Effect Diagram

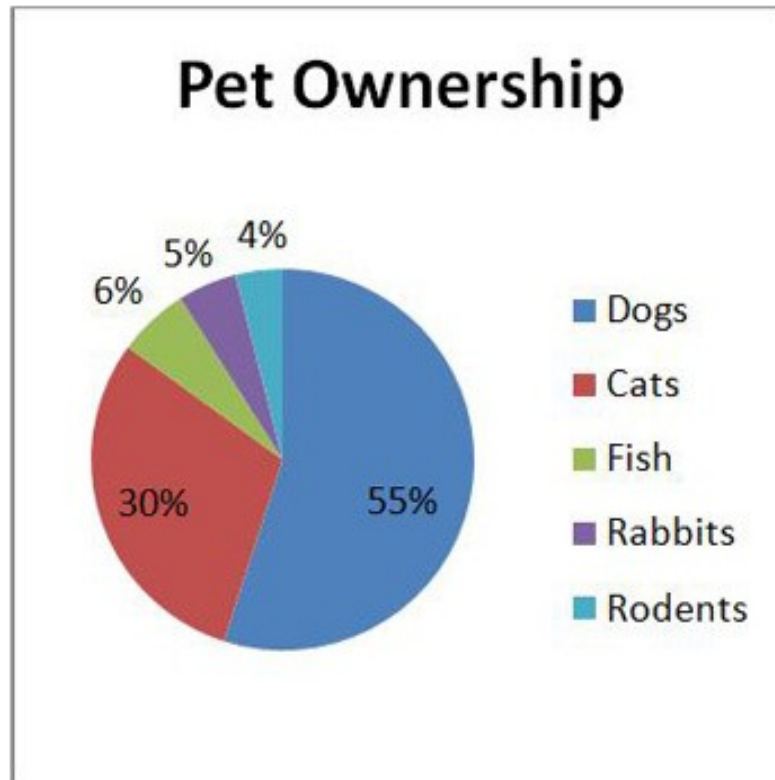

Line Graph

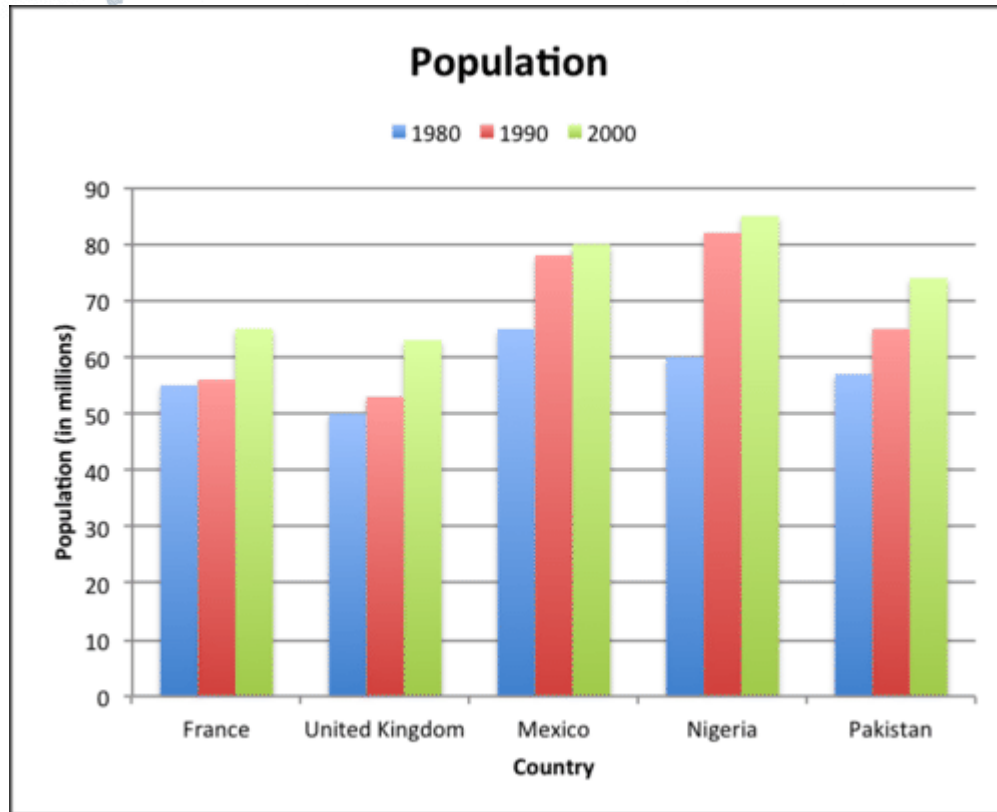

is a graph which uses lines to connect individual data points that display quantitative values over a specified time

Pie Chart

Pie charts are generally **used to** show percentage or proportional data and usually the percentage represented by each category is provided next to the corresponding slice of **pie**.

Bar Graph

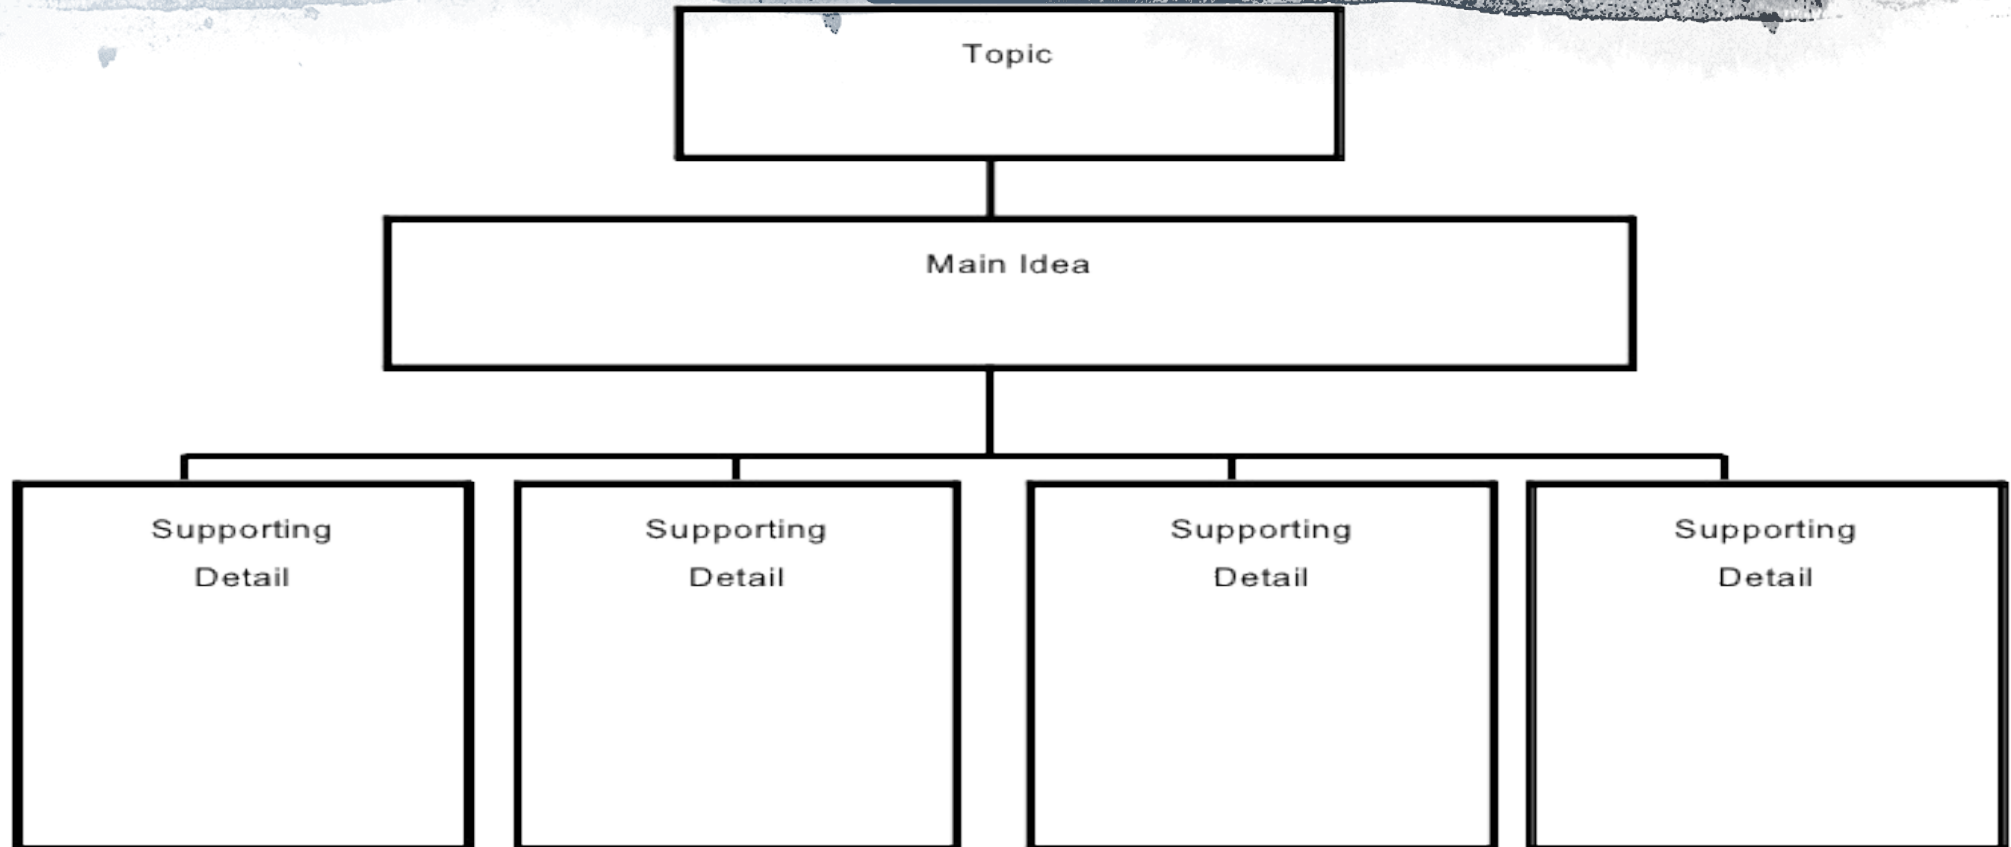

Bar Graph (also called Bar Chart) is a graphical display of data using bars of different heights.

Main Idea and Details Chart

This chart shows the hierarchical relationship between major concepts and their subordinate elements.

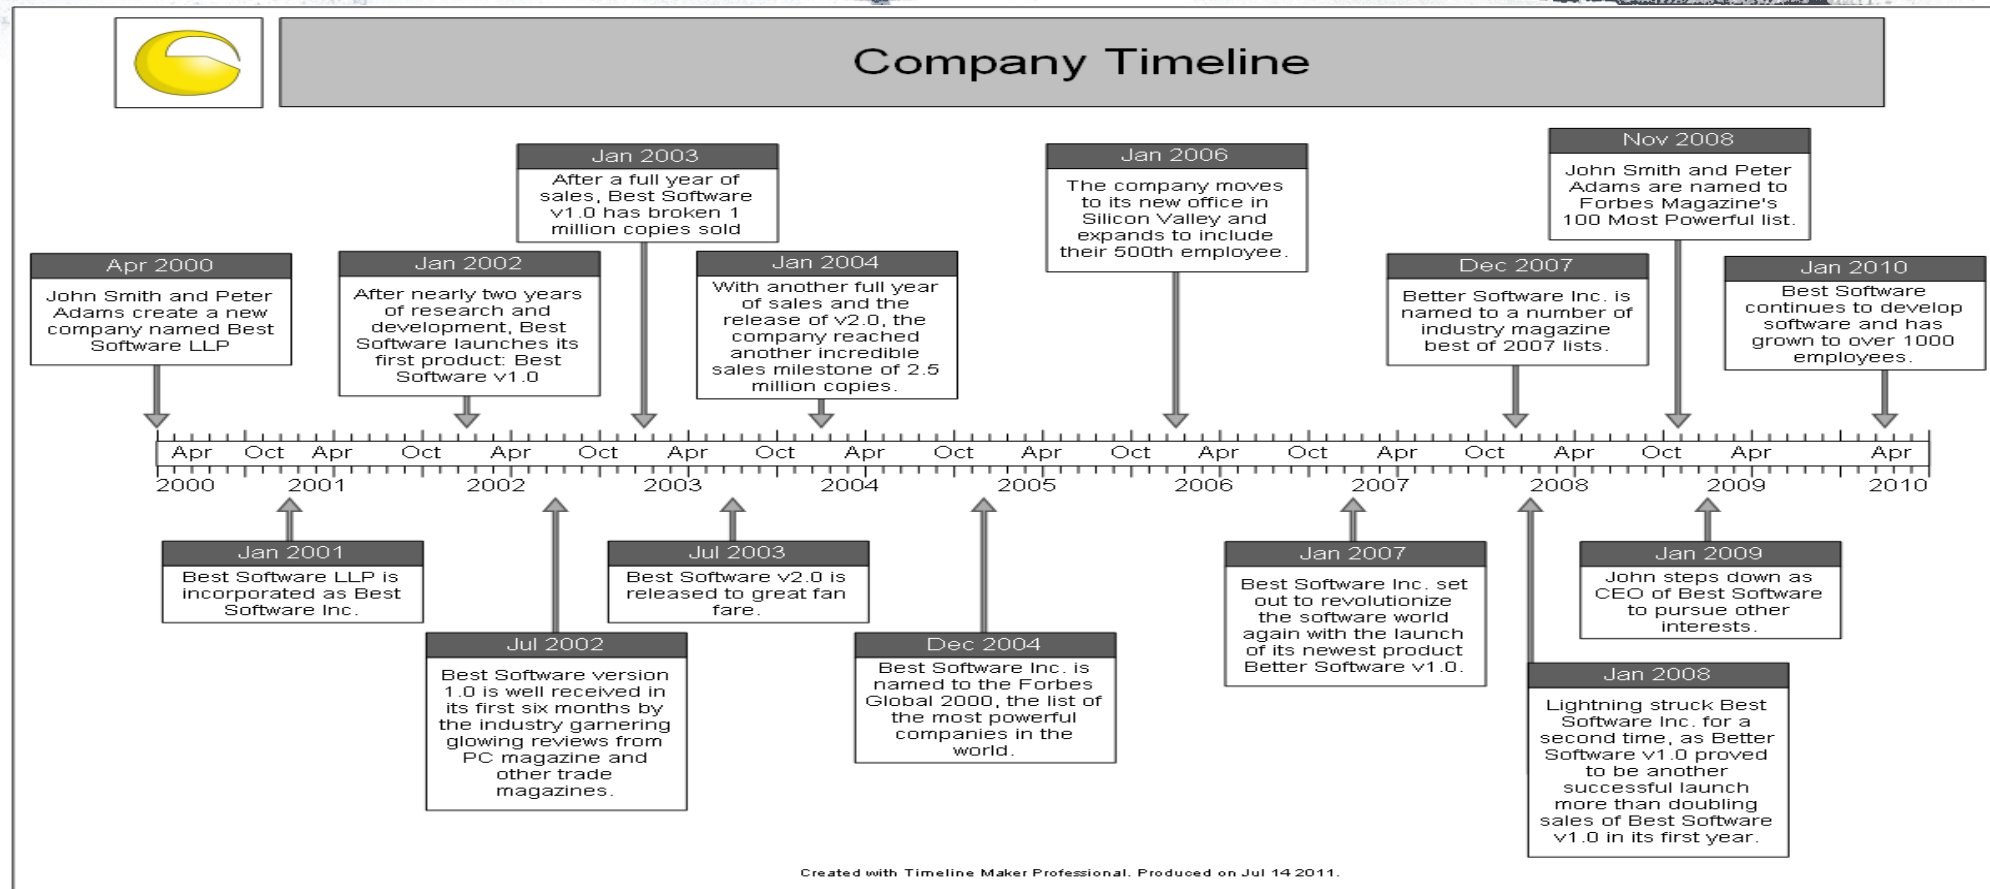

Example of Main Idea and Details Chart

Timeline

A timeline is
display of a
list of events
in
chronological
order.
