#### **NOTIFICATION REGARDING TMA MALPRACTICE AND INCOMPLETE RESULTS**

During the processing of semester results, the Directorate of Examination and Assessment (DEA) identified several students who were previously booked for TMA malpractice but did not re-attempt their TMAs as directed by the University Management. As a result, these students will receive incomplete results (IR) for the affected courses.

The DEA has provided a list of the affected students and requests that you inform them of the following options when they visit your study centres:

1. Re-attempt TMAs: Students may choose to re-attempt their TMAs. The new scores will be merged with their current examination scores. However, please note that most students may still fail the course due to their low examination scores.
2. Re-register for Courses: Students can re-register for the affected courses now that the registration portal is open. This option allows them to retake both the TMA and the examination this semester.

Please ensure that the affected students are appropriately guided and informed of these options.

Please be suitably guided accordingly.

A handwritten signature in black ink, appearing to read 'Ojo', is positioned above the name of the Director.

**Prof. Olugbenga Ojo**
