TMA 1

1 Change in input price, government policy, organizational change may lead to_.

higher cost of production for a firm

2 Income and substitution effects are better use in explaining the link between_ and _.

demand and price

3 Quantity of a commodity purchased by an individual or family or group of people at different prices at a given time and place is known as the _.

demand for such commodity

4 Goods and services usually referred to as _are produced by firms while household individuals are the _ of the commodities.

'Commodities' , consumers

5 In a _ economy, the economic decision are made based on _, _ and _ of that society.

traditional; believes, norms, religion and customs

6 In a controlled economy, it is the _ that makes the economic decision and it is solely done, meaning that there are no _ initiatives.

government, private sector

7 Free market economy or market economy is an economic system where the basic economic decisions are made by the buyers and sellers, individual households and businesses in the economy_mechanism

through the price

8 In Mixed economy, economic decision on what to produce; how and where to produce; for whom to produce; is made jointly by the_ and _ sectors in the economy.

government and the pr ivate

9 _ and _work together to answer basic economic problems in relation to the resources in the society and its _

Individual and institutions, scarcity

10 An economic system consists of _, _ and their interaction in the process of answering basic_.

individual, institutions; economic problems

11 _ have its influence on human behavior which determines their decisions in answering basic

Social institutions, economic problem

12 In Market economy, _ are made by the invisible hand of market forces.

decisions, invisible hand

13 Thorough evaluation and rating of_ from most valued to least valued is a required step in arriving at a _ of what to produce.

goods and services, decision

14 Human wants are unlimited and ever dynamic due to ever changing _ and needs for _which are limited.

demands, resources

15 There is the need to strike a balance between _ and _ human wants.

scarce resources and unlimited, insatiable

16 In making a decision, we implicitly compare the _ of our _ over the other one.

costs and benefits, choices

17 Capitalist Economy is usually an _ while the aim of a _ is social control

occupational freedom, Socialist Eco nomy

18 The term rationality is somewhat deceptive according to _

Friedman (1990)

19 The decisions made by _ , _ and _are vital to their survival.

individuals, corporations and gov ernments

1). Former Soviet Union, Cuba, Germany, Russia, North Korea etc are close examples of ------ economies

(A)free enterprise

(B)capitalism and Communism

(C)Controlled or Planned

(D)mixed economy

Correct Answer: Controlled or Planned

2). Free market economy is an economic system where the basic economic decisions are made by the buyers and sellers, individual households and businesses in the economy through the ------.

(A)cost mechanism

(B)price mechanism

(C)market mechanism

(D)trade mechanism

Correct Answer: price mechanism

3). A budget line is ----------

(A)downward sloping

(B)slanting

(C)positively sloped

(D)upward sloping

Correct Answer: downward sloping

4). In economics the central problem is ---------.

(A)allocation

(B)money

(C)production

(D)scarcity.

Correct Answer: scarcity.

5). Controlled or Planned economies are usually associated with -------where government determines the wages of workers, the prices of goods and services and level of output.

(A)Socialism and Communism

(B)capitalism and Communism

(C)Socialism and facsism

(D)Socialism and authoritharianism

Correct Answer: Socialism and Communism

6). The following are determinants of demand elasticity except ------

(A)time

(B)proportion of income spent on the commodity

(C)number of uses the product could be put

(D)technology

Correct Answer: technology

7). price ceiling is always fixed ---------- equilibrium price

(A)above

(B)below

(C)beyond

(D)beside

Correct Answer: below

8). The following are features of perfect competitive market except ------

(A)homogeneous goods

(B)firms are price taker

(C)perfect mobility of factors

(D)single seller, many buyers

Correct Answer: single seller, many buyers

9). The amount of satisfaction derive from consumption of a particular commodity is -----

(A)satisfactor

(B)utility

(C)marginal utility

(D)satisfactory

Correct Answer: utility

10). In a controlled economy, it is the ------ that makes the economic decision and it is solely done meaning that there are no ----- sector initiatives

(A)private/ government

(B)government / banking

(C)private / public

(D)government / private

Correct Answer: government / private

Defined objectives

4 A rational, dynamic and integrative process in administration is known as _

Planning

5 The bane of economic development is hinged on_

Popular enthusiasm

6 At the apex of each of the Civil Service Structure in Nigeira is _

Head of service

7 A lubricating oil for planning in economic development is _

Popular enthusiasm

8 In international relations, developing country committed to planning must ____

Maintain friendly relations

9 The success of planning in any political administration depends on

Accurate Data

10 What is imperative in an under developed countryfo r proper public administration?

Good governance

11 Effective planning in a state presupposes __

Strong Gover nment

12 A decision taken in advance before the act to be done is known as _

Planning

13 The Functional Organisation of Ministries for effective performance is baded on __

their portfolio

14 Nigerian became a social welfare state in the year

1960

15 A ministerial organization of civil servants is headed by a

Permanent Secretary

16 The concept of welfare state necessitated the concept of _ in public administration

human app roach

17 Intellectuals make no good administrators due to

Inadequate Capacity

18 A decision is usually made within _

Policy guide

19 Decisions are not permanent in public administration due to

Changed circumstances

20 In administration individuals make choices and as well abide by the consequences of such decisions making, due to

Personal Differ ences

Spot news is an example of

hard news

2 The breakdown of NNPC pipelines makes the news ,the decision to select it is based on

consequence

3 One distinguishing feature between hard news and soft news is that

soft news report with less immediacy than the hard news

4 News about the canonization of Pope John Paul 11 in Rome will interest Catholics in Abuja based on what value?

psycholo gical proximity

5 News is basically categorized into

hard and soft news

6 Summary lead is usually found in

hard story

7 Reporters gather fact for their news stories through the following sources

observation

newsroom

personal co ntact

***All of the above

8 ------allows for comment upon the news

in-depth reporting

9 A good lead must answer all the five Ws and H

TRUE

10 -------Reporting fulfils the surveillance role of news

investig ative

11 The delayed lead is found in

soft news

12 Forms of reportimg include

in-depth,specialized,interpretat ive,basic

13 In what significance ways is news writing different from academic writing?

News stories are arranged in descending order of impo rtance

14 At the highest echelon of newsroom management you have ____

editor/new s director

15 Regardless of medium, news reporting process begins in __

newsroom

16 Contextual information is necessary in writing

Basic and in-depth stories

17 The following are news element except:

Which

18 The most influential element of the reportorial process is _____

Messag e

19 When a report state some one□??s comment using words, such a reporter is _

Paraphrasi ng

20 The journey of news story begins at ____

The new sroom

Question: Find the mode of the values: 7, 9, 10, 13,11, 7, 9, 19, 12, 11, 9, 7, 9, 10, 11.

Answer: 9

Question: The difference between the largest and the smallest data values is the

Answer: Range

Question: A Principal asked students in a class their ages. On the basis of this information, the Principal gave the average age of all the students in the whole school as 21 years. This is an example of

Answer: A statistical inference

Question: The level of measurement that allow the rank ordering of data items is:

Answer: ordinal measurement

Question: Which of the following is not a measure of dispersion?

Answer: the 50th percentile

Question: Temperature is an example of a variable that uses:

Answer: the ratio scale

Question: Find the mode of the values: 7, 9, 10, 13, 11, 7, 9, 19, 12, 11, 9, 7, 9, 10, 11.

Answer: 9

Question: If the standard deviation of a sample of 50 observations is 6.0, what is the variance of that sample?

Answer: 36

Question: If the size of a population is N and the size of a sample is n, then the correct relationship between N and n is

Answer: N>=n

Question: Abe has just found that the variance of a sample of 32 observations to be 64.0. What then is the standard deviation of the sample?

Answer: 8

Question: Which of the following is not a measure of central location?

Answer: Variance

NSC 307 TMA 1

Nsc307 TMA1 answers

1- Receptor
2- Insulin
3- Pharmacodynamics
4- Ranitidine

5- Chemotherapy
6- Relatively slow onset of action
7- Traditional medicines
8- Suppositories
9- Occurs in individuals exposed to environmental allergies
10- Essential drugs

NSC 305 TMA 1

Nsc305 tma1 answers

1; 2 forms of immunity

2; specific immunity is also called acquired immunity

3; White blood cells

4; phagocytosis

5; which of these is the body's response against individual invading organisms? (Acquired immunity)

6; cell mediated immunity is a type of acquired immunity

7; T- lymphocytes

8; inflammation

9; another name for natural immunity is innate immunity

10; Ribocytes

Question: Hydrogen can be obtained economically as a bye product in the elctrolysis of during the manufacture of sodium hydroxide

Answer: brine

Question: The originator of the modem atomic theory is

Answer: Dalton

Question: Atom may combine in definite ration to form larger groups of atoms or unit called

Answer: molecules

Question: Atomic hydrogen is a powerful agent

Answer: reducing

Question: Hydrogen react with oxygen at room temperature to form

Answer: hydrogen peroxide

Question: In space craft, hydrogen gas is used as cells for generating electrical energy.

Answer: fuel

Question: Hydrogen reacts with alkali metals to form one of the following

Answer: hydrides

Question: All matter are made up of atoms which consists of principally three fundamental particles which are itemised thus

Answer: electrons, protons and neutrons

Question: An atom that has accepted an electron(s) and have net negative charge is called

Answer: anion

Question: In metallurgy, hydrogen reduces metal oxides to

Answer: metals

1 The Federal Civil Service in Nigeria is organized into _ strands

37

2 Two basic issues that should be avioded in a developing economy is

Deficit financing and inflation

3 The basic premise for successful planning of a government is___

Defined objectives

4 A rational, dynamic and integrative process in administration is known as _

Planning

5 The bane of economic development is hinged on_

Popular enthusiasm

6 At the apex of each of the Civil Service Structure in Nigeira is _

Head of service

7 A lubricating oil for planning in economic development is _

Popular enthusiasm

8 In international relations, developing country committed to planning must ____

Maintain friendly relations

9 The success of planning in any political administration depends on

Accurate Data

10 What is imperative in an under developed countryfo r proper public administration?

Good governance

11 Effective planning in a state presupposes __

Strong Gover nment

12 A decision taken in advance before the act to be done is known as _

Planning

13 The Functional Organisation of Ministries for effective performance is baded on __

Their portfolio

14 Nigerian became a social welfare state in the year

1960

15 A ministerial organization of civil servants is headed by a

Permanent Secretary

16 The concept of welfare state necessitated the concept of _ in public administration

Human app roach

17 Intellectuals make no good administrators due to

Inadequate Capacity

18 A decision is usually made within _

Policy guide

19 Decisions are not permanent in public administration due to

Changed circumstances

20 In administration individuals make choices and as well abide by the consequences of such decisions making, due to

Personal Differ ences

Spot news is an example of

Hard news

2 The breakdown of NNPC pipelines makes the news ,the decision to select it is based on

Consequence

3 One distinguishing feature between hard news and soft news is that

Soft news report with less immediacy than the hard news

4 News about the canonization of Pope John Paul 11 in Rome will interest Catholics in Abuja based on what value?

Psycholo gical proximity

5 News is basically categorized into

Hard and soft news

6 Summary lead is usually found in

Hard story

7 Reporters gather fact for their news stories through the following sources

Observation

Newsroom

Personal co ntact

***All of the above

8 ------allows for comment upon the news

In-depth reporting

9 A good lead must answer all the five Ws and H

TRUE

10 -------Reporting fulfils the surveillance role of news

Investig ative

11 The delayed lead is found in

Soft news

12 Forms of reportimg include

In-depth,specialized,interpretat ive,basic

13 In what significance ways is news writing different from academic writing?

News stories are arranged in descending order of impo rtance

14 At the highest echelon of newsroom management you have ____

Editor/new s director

15 Regardless of medium, news reporting process begins in __

Newsroom

16 Contextual information is necessary in writing

Basic and in-depth stories

17 The following are news element except:

Which

18 The most influential element of the reportorial process is _____

Messag e

19 When a report state some one□??s comment using words, such a reporter is _

Paraphrasi ng

20 The journey of news story begins at ____

The new sroom

POL223

Question: The developed structures of feudalism emerged in the 11th and 12th centuries following the collapse of the .?

Answer: roman empire

Question: in line with Marx\'s notion, one of these existed as part of levels of relationship in the process of production?

Answer: relationship between man and environment

Question: Classical approach to political economy extols all of the following policies initiatives, except?

Answer: regulation

Question: Weberr disagrees with Marx on the process of .. Mobility?

Answer: exchange

Question: Which one of the following is the first phase of communism?

Answer: socialism

Question: The relationship between people in the process of production, exchange, distribution and the consumption of material wealth are technically called..?

Answer: economic relation

Question: Neo-Classical Political Economy gained prominence with the writings of?

Answer: John Keynes

Question: All of these are bases of capitalist societies except?

Answer: public ownership

Question: in the feudal epoch, serfs attached to the land owned by a lord and required to perform… in return for certain legal rights

Answer: labor

Question: A union of the working class and the bulk of the peasantry with that of other countries is referred to as? Proletarian internationalism

Answer: proletarian internationalism

Â€¦â€¦..is a core responsibility of the nurse

Caring

Question: Find the mode of the values: 7, 9, 10, 13,11, 7, 9, 19, 12, 11, 9, 7, 9, 10, 11.

Answer: 9

Question: The difference between the largest and the smallest data values is the

Answer: Range

Question: A Principal asked students in a class their ages. On the basis of this information, the Principal gave the average age of all the students in the whole school as 21 years. This is an example of

Answer: A statistical inference

Question: The level of measurement that allow the rank ordering of data items is:

Answer: ordinal measurement

Question: Which of the following is not a measure of dispersion?

Answer: the 50^{th} percentile

Question: Temperature is an example of a variable that uses:

Answer: the ratio scale

Question: Find the mode of the values: 7, 9, 10, 13, 11, 7, 9, 19, 12, 11, 9, 7, 9, 10, 11.

Answer: 9

Question: If the standard deviation of a sample of 50 observations is 6.0, what is the variance of that sample?

Answer: 36

Question: If the size of a population is N and the size of a sample is n, then the correct relationship between N and n is

Answer: N>=n

Question: Abe has just found that the variance of a sample of 32 observations to be 64.0. What then is the standard deviation of the sample?

Answer: 8

Question: Which of the following is not a measure of central location?

Answer: Variance

Question: Many estimates, allocations and valuations in accounting are based on one of the following concepts

Answer: [C] Going concern concept

Question: Recording of expenses made and payments received is within the exclusive limit of one of the following

Answer: [C] Bookkeeping

Question: Zakiyya & Co bought electricity appliances worth N56,000 and paid by cash. Indicate which account to be debited and which to be credited

Answer: [D] DR- Electricity Appliances A/C and CR-Cash A/C

Question: Book keeping activities involves all of the following EXCEPT

Answer: [A] Statement of Cashflow

Question: In accounting, profit is calculated or determined by including elements of revenue and costs

Answer: [A] This statement is correct

Question: In record keeping, back up is essential if informations are stored

Answer: [D] Electronically

Question: Maintaining of proper records both electronic and otherwise is an important step in book keeping and it is called

Answer: [C] Documentation

Question: Which of the following statement is NOT true about invoice

Answer: [A] It is an outright demand for payment

Question: Nehemiah & Co purchased goods worth N150,000 on credit from Nagwamatse group on 25th March, 2019. Nagwamatse group granted Nehemiah & Co 7% cash discount if the credit sales is fully settled on or before 20th April, 2020. Calculate the balance to be paid by Nehemiah & Co within the agreed period.

Answer: [C] 139,500

John Enang:

Score: 10/10

The percentage increase in the prices of five items (A, B, C, D and E) are respectively 15%, 35%, -10% -7% and 12%. What is the mean percentage change? _ Answer: 9%

Given that group of girls and boys exist in equal number, and assuming that 5% of the boys are colour blind and that 10% of the girls are colour blind, evaluate the probability that, having drawn a colour-blind person, this is a female _ Answer: 0.6666

Of 12 accounts held in a file, four contain a procedural error in posting account balances. If an auditor samples three accounts randomly, what is the probability that at least one will contain the error? _ Answer: 0.75

Two cards are drawn from a deck of 52 cards. Find the probabilities of the event that the first card is a king and the second a figure _ Answer: 0.0165

The mean and the median wages of a group of workers are N350 and N340 respectively, what is the modal wage? _ Answer: N320

The number of apples sold on a particular day by a fruit seller are 2, 4, 7, 10, 10, 10, 12, 12, 14, 15. Determine the value at the 30^{th} percentile _ Answer: 8.5

During one month the ratio of millet prices to corn was 4.5, whereas during the next month the ratio was 2.5. find the arithmetic mean of the ratios of corn to millet for the 2-month period. _

Answer: 0.3111

A principal of N1000 is invested at an 8% annual rate of interest. What will be the accrued interest after 6 years? _ Answer: N586.87

The mean, median, mode and the standard deviation of a set of numbers are 2360, 2340, 1980 and 650 respectively, what is the value of first coefficient of skewness? _ Answer: 0.5846

Of 300 business students, 100 are currently enrolled in economics and 80 are currently enrolled in business statistics. These enrollment figures include 30 students who are in fact enrolled in both courses. What is the probability that a randomly chosen student will be enrolled in either economics € or business statistics (B)? _ Answer: 0.5

The percentage increase in the prices of five items (A, B, C, D and E) are respectively 15%, 35%, -10% -7% and 12%. What is the mean percentage change? _ Answer: 9%

2: the cell was first discovered & named by Robert hooke in the year

(a) 1665 ✅

(b) 1859

© 1900

(d) 1839

3: the concept of cell theory was formally articulated in 1839 by

(a) schleiden & schwann ✅

(b) mendel & schleiden

© darwin & schwann

(d) mendel & darwin

4: which of the following statements about cell is not untrue

(a) the cell is the structural functional unit of all living things

(b) all cell rise from pre-existing cell by division

© all of the options

(d) all known living thing are made up of cell

5: the first man to witness cell under a microscope was

(a) vasco de gama

(b) anton van leeuwenhoek ✅

© mathias schleiden

(d) theodor schwann

6: all but one of these statements have passed the test of time

(a) all cell arise from pre-existing cell

(b) cell from by free cell formation, similar to the formation of crystals

© the cell retains a dual existence as a distinct entity & a building block in the construction of organisms

(d) the cell is the unit of structure physiology & organisation in living things

7: the english naturalist who coined the term cell after viewing slices of cork through a microscope was

(a) robert hooke

(b) jean lamarck

© gregor mendel

(d) matthias schleiden

8: the main source of energy for all of a cell biological processes is

(a) ADP

(b) DNA

© ATP ✅

(d) RNA

9: who was credited with the invention of the microscope

(a) leeuwenhoek

(b) schwann

© mendel

(d) galileo ✅

10: who was the botanist that suggested that every structural element of plant is composed of cells or their products

(a) matthias jakob schleiden

(b) theodor schwann

© robert hooke

(d) gregor mendel

1). Former Soviet Union, Cuba, Germany, Russia, North Korea etc are close examples of ------ economies

(A)free enterprise

(B)capitalism and Communism

©Controlled or Planned

(D)mixed economy

Correct Answer: Controlled or Planned

2). Free market economy is an economic system where the basic economic decisions are made by the buyers and sellers, individual households and businesses in the economy through the ------.

(A)cost mechanism

(B)price mechanism

©market mechanism

(D)trade mechanism

Correct Answer: price mechanism

3). A budget line is ----------

(A)downward sloping

(B)slanting

©positively sloped

(D)upward sloping

Correct Answer: downward sloping

4). In economics the central problem is ---------.

(A)allocation

(B)money

©production

(D)scarcity.

Correct Answer: scarcity.

5). Controlled or Planned economies are usually associated with -------where government determines the wages of workers, the prices of goods and services and level of output.

(A)Socialism and Communism

(B)capitalism and Communism

©Socialism and facsism

(D)Socialism and authoritharianism

Correct Answer: Socialism and Communism

6). The following are determinants of demand elasticity except ------

(A)time

(B)proportion of income spent on the commodity

©number of uses the product could be put

(D)technology

Correct Answer: technology

7). Price ceiling is always fixed ---------- equilibrium price

(A)above

(B)below

©beyond

(D)beside

Correct Answer: below

8). The following are features of perfect competitive market except ------

(A)homogeneous goods

(B)firms are price taker

©perfect mobility of factors

(D)single seller, many buyers

Correct Answer: single seller, many buyers

9). The amount of satisfaction derive from consumption of a particular commodity is -----

(A)satisfactor

(B)utility

©marginal utility

(D)satisfactory

Correct Answer: utility

10). In a controlled economy, it is the ------ that makes the economic decision and it is solely done meaning that there are no ----- sector initiatives

(A)private/ government

(B)government / banking

©private / public

(D)government / private

Correct Answer: government / private

1. In metallurgy, hydrogen reduces metal oxides to_

Answer: metals

2. In space craft, hydrogen gas is used as cells for generating electrical energy.

Answer: Fuel

3. Hydrogen reduses sulphur to

Answer: hydrogen sulphide

4. Hydrogen react with oxygen at room temperature to form _

Answer: hydrogen peroxide

5. An atom that has accepted an electron(s) and have net negative charge is called_

Answer: anion

6. The mass number of an atom is defined as the number of in the atom

Answer: protons and neutrons

7. The balanced chemical equation for the reaction of hydrogen and nitrogen in the preparation of ammonia is _

Answer: 3H2+N2<−−−−−−>2NH3

8. Atom may combine in definite ratio to form larger groups of atoms or unit called _

Answer: molecules

9. One of the industrial uses of hydrogen is in the manufacture of in fertilizer plants

Answer: ammonia

10. Another name for group 1 element is ____

Answer: alkali metals

1 The Federal Civil Service in Nigeria is organized into _ strands

37

2 Two basic issues that should be avioded in a developing economy is

Deficit financing and inflation

3 The basic premise for successful planning of a government is___

Defined objectives

4 A rational, dynamic and integrative process in administration is known as _

Planning

5 The bane of economic development is hinged on_

Popular enthusiasm

6 At the apex of each of the Civil Service Structure in Nigeira is _

Head of service

7 A lubricating oil for planning in economic development is _

Popular enthusiasm

8 In international relations, developing country committed to planning must ____

Maintain friendly relations

9 The success of planning in any political administration depends on

Accurate Data

10 What is imperative in an under developed countryfo r proper public administration?

Good governance

11 Effective planning in a state presupposes __

Strong Gover nment

12 A decision taken in advance before the act to be done is known as _

Planning

13 The Functional Organisation of Ministries for effective performance is baded on __

their portfolio

14 Nigerian became a social welfare state in the year

1960

15 A ministerial organization of civil servants is headed by a

Permanent Secretary

16 The concept of welfare state necessitated the concept of _ in public administration

human app roach

17 Intellectuals make no good administrators due to

Inadequate Capacity

18 A decision is usually made within _

Policy guide

19 Decisions are not permanent in public administration due to

Changed circumstances

20 In administration individuals make choices and as well abide by the consequences of such decisions making, due to

Score: 10/10

The percentage increase in the prices of five items (A, B, C, D and E) are respectively 15%, 35%, -10% -7% and 12%. What is the mean percentage change? _ Answer: 9%

Given that group of girls and boys exist in equal number, and assuming that 5% of the boys are colour blind and that 10% of the girls are colour blind, evaluate the probability that, having drawn a colour-blind person, this is a female _ Answer: 0.6666

Of 12 accounts held in a file, four contain a procedural error in posting account balances. If an auditor samples three accounts randomly, what is the probability that at least one will contain the error? _ Answer: 0.75

Two cards are drawn from a deck of 52 cards. Find the probabilities of the event that the first card is a king and the second a figure _ Answer: 0.0165

The mean and the median wages of a group of workers are N350 and N340 respectively, what is the modal wage? _ Answer: N320

The number of apples sold on a particular day by a fruit seller are 2, 4, 7, 10, 10, 10, 12, 12, 14, 15. Determine the value at the 30th percentile _ Answer: 8.5

During one month the ratio of millet prices to corn was 4.5, whereas during the next month the ratio was 2.5. find the arithmetic mean of the ratios of corn to millet for the 2-month period. _

Answer: 0.3111

A principal of N1000 is invested at an 8% annual rate of interest. What will be the accrued interest after 6 years? _ Answer: N586.87

The mean, median, mode and the standard deviation of a set of numbers are 2360, 2340, 1980 and 650 respectively, what is the value of first coefficient of skewness? _ Answer: 0.5846

Of 300 business students, 100 are currently enrolled in economics and 80 are currently enrolled in business statistics. These enrollment figures include 30 students who are in fact enrolled in both courses. What is the probability that a randomly chosen student will be enrolled in either economics (E) or business statistics (B)? _ Answer: 0.5

POL111

Question: Political science can be broadly subdivided into two:

Answer: Political theory and political organisation.

Question: When Russell Kirk said â€œHuman beings are the least controllable, verifiable, law obeying and predictable objects his argument was that:

Answer: Political science is not a science.

Question: Choose the correct option from the following:

Answer: Tyranny is the rule of one strong man over others in his own interest

Question: Which of the following options represents the truth about political science?

Answer: Political science studies power, authority, influence, and other forms of human control.

Question: Which of the options below underlines Isaac Disrael's definition of politics as the art of governing mankind by deceiving them?

Answer: Political dishonesty.

Question: Political science is a science because:

Answer: It uses scientific methods in its enquiries.

Question: Strictly speaking, political science is not a science because:

Answer: Its conclusions are tentative.

Question: Which of the following options best represents Thomas Hobbes State of nature?

Answer: Anarchy

Question: From the options provided, choose the one that is absolutely correct.

Answer: All of the above

1 The Federal Civil Service in Nigeria is organized into _ strands

37

2 Two basic issues that should be avioded in a developing economy is

Deficit financing and inflation

3 The basic premise for successful planning of a government is___

Defined objectives

4 A rational, dynamic and integrative process in administration is known as _

Planning

5 The bane of economic development is hinged on_

Popular enthusiasm

6 At the apex of each of the Civil Service Structure in Nigeira is _

Head of service

7 A lubricating oil for planning in economic development is _

Popular enthusiasm

8 In international relations, developing country committed to planning must ____

Maintain friendly relations

9 The success of planning in any political administration depends on

Accurate Data

10 What is imperative in an under developed countryfo r proper public administration?

Good governance

11 Effective planning in a state presupposes __

Strong Gover nment

12 A decision taken in advance before the act to be done is known as _

Planning

13 The Functional Organisation of Ministries for effective performance is baded on __

their portfolio

14 Nigerian became a social welfare state in the year

1960

15 A ministerial organization of civil servants is headed by a

Permanent Secretary

16 The concept of welfare state necessitated the concept of _ in public administration

human app roach

17 Intellectuals make no good administrators due to __

Inadequate Capacity

18 A decision is usually made within _

Policy guide

19 Decisions are not permanent in public administration due to

Changed circumstances

20 In administration individuals make choices and as well abide by the consequences of such decisions making, due to __

Personal Differ ences

Question: Which of the following is not required in order to write and display general instructions for laboratory use?

Answer: Dissecting kits

Question: Which of the following is not true?

Answer: Always wear a lab coat and loose clothes in the lab

Question: Which of the following is not necessary to be included in report?

Answer: Colour of the specimen

Question: is not a type of section in Biology.

Answer: angular section

Question: This information may not be required in field study.

Answer: Name of Organisation

Question: A display in the laboratory should not be

Answer: inconspicuous

Question: Labels for Slides should carry one of the following information.

Answer: name of the organism

Question: The methods of specimens collection usually vary with the following except .

Answer: The type of container to use in collecting the specimens

Question: Which of the following laboratory equipment is different from others?

Answer: Spectrophotometer

Question: The heading of a biological drawing usually contains the following vital elements except

Answer: The shape of the drawing

NSC307

Betablockers are divided into â€|â€|. groups

Answer: 3

Hypertensive emergencies require immediate

Answer: hospitalization

The renal glucose level is

â€|â€!â€!â€|â€!..

Answer: 170 to 180mg/dl

World Health Organization launched traditional medicine strategy in

Answer: 2002

A side effect of Quinidine is â€!â€!â€|â€|â€!..

Answer: hypertension

â€|â€|â€!.. is the drug of choice for treating Onchocerchiasis

Answer: ivermectin

A patient suffering from renal failure will undergo â€|â€|â€|.

Answer: extracroporal dialysis

The most important single etological factor ofCHF is

Answer: hypertension

Insulin stimulates glycogen synthesis and storage in the â€|â€|.

Answer: liver

two divisions of the autonomic nervous system are

Answer: midbrain and medulla

Acetylcholine is synthesized in â€|â€!â€!â€|â€!..

Answer: cytoplasm

Epinephrina and norepinephrine suppresess

Answer: insulin

Malaria is endemic in â€|â€|. countries

Answer: 102

Insulin enhances the formation of â€|â€|â€|..

Answer: triglycerides

Insulin enhances the â€|â€|â€| of triglycerides

Answer: formation

The dosage for Propanalol is â€|â€|â€|

Answer: 40 to 100mmg

Renal elimination of drug is done by which of the following

Answer: glomerualar filtration

non-pharmacological intervention of high blood pressure is

Answer: salt restriction

Most new drugs are launched throughâ€|â€| approaches

Answer: 5

DataÂ Warehousing.Â

2. DataÂ Mining. predicts futureÂ trends &Â behaviors, allowing business managers to makeÂ proactive,knowledge-driven decisions.Â ----------

DataÂ mining.Â

3. The time horizon in Data warehouse is usually _.Â

5-10Â years.Â

4. The important aspectÂ of the data warehouse environment is that dataÂ found within the datawarehouse is.Â

All of the options

5. Expansion for DSS in DW is_.Â

DecisionÂ SupportÂ system

6. _describes the data contained in the dataÂ warehouse.Â

Metadata.

7. _ is the heart of the warehouse.Â

Data warehouse database servers

8. ____ is held in the catalog of the warehouse database system.

Algorithmic level metadata.

9.

_defines the structureÂ of the data held in operational databases and used byoperationalÂ applications.Â

Operational metadata.

10. __ is the specialized data warehouse database.

Redbrick.

1) which of the ff is a legal aspect. Ans all of the options.

2) in recent times. Ans all of the options.

3) the normal estimated week of confinement. Ans 38-42.

4) the NMCN is a category B parastatal.

Ans No 89,1979.

5) maternal and child health nursing can be visualized. Ans health promotion.

6) the objective of nursing and midwifery council of Nigeria include the ff. Ans negotiate salary structure.

7) pubarche is controlled by. Ans androgen.

8) the procedure that involves direct visualization. Ans laparoscopy.

9) the phase of health care in which the focus. Ans health restoration.

10) at what week of intrauterine life. Ans 10 weeks.

NSC 311 TMA 1

NSC311 10/10

1) nursing and _. Ans medicine.

2) benedictine order. Ans 6th.

3) the act of utilizing the environment. Ans Nightingale.

4) which of the ff options. Ans provide care.

5) Florence Nightingale became the ____. Ans founder.

6) in the ancient cultures. Ans religious leaders.

7) the order of deaconesses is similar. Ans public health nurse.

8) women entry into nursing. Ans 300.

9) nursing practice in the 21 century. Ans client.

10) Christianity taught that. Ans equal.

NSC 303 TMA 1

NSC303 TMA1 10/10

1) _ well being is the ability. Ans mental.

2) every individual and community have their. Ans health.

3) health is relative concept. Ans ecological.

4) reflect social values. Ans lifestyle.

5) defined health as a relative. Ans dubos.

6) determinants of health include all except. Ans age.

7) _ is pertains to the tissue. Ans A and B.

8) the ecological concept raises two issues. Ans imperfect man, imperfect environment.

9) _ concept see disease or ill health. Ans biomedical.

10) physical and mental traits. Ans conception.

1. _ Antidepressant medication are best avoided because of the potential for addiction

Sodium Valproate

Chlorpromazine

Fluoxetine

--->> Benzodazepines

2. The type of personality that operate according the pressure principle is called_____?

--->> Id

Ego

Superego

Ego-Id

3. The three body types, according to Sheldon was established in the year_____?

1950

--->> 1954

1960

1963

4. Prevalence rates are 2 - 3% in the generation population and 10-15% in psychiatric inpatience population

Borderline

Antisocial

--->> Historionic

Narcissistic

5. ____Believe that genetics are the primary determinate of personality

B. F. Skinner

John B. Watson

--->> Hans Eysenck

Carl Rogers

6. _Personlity disorder have a prevalence rate of 2% in the general population and 20% in psychiatric inpatient populations

--->> Borderline

Hisorionic

Narcissistic

Antisocial

7. The following are the examples of Neuroses Except_____?

Phobic Neurosis

Hysterical Neurosis

Anxiety Deurosis

--->> All of the above

8. The old name for Mental subnormality is called_____?

--->> Mental deficiency

Mental Disorder

mental retadation

None of the above

9. â€¦â€¦â€¦â€¦.. Are false beliefs which are not true to fact, cannot be corrected an appeal to reason or logic

--->> Delusions

Hallucination

Flight of Ideas

Emotional Reaction

10. _is a pervasive pattern of gradiosity need for aadmiration and lack of empathy?

Antisocial

Borderline

Historionic

--->> Narcissistic

Question: Hydrogen can be obtained economically as a bye product in the elctrolysis of during the manufacture of sodium hydroxide

Answer: brine

Question: The originator of the modem atomic theory is

Answer: Dalton

Question: Atom may combine in definite ration to form larger groups of atoms or unit called

Answer: molecules

Question: Atomic hydrogen is a powerful agent

Answer: reducing

Question: Hydrogen react with oxygen at room temperature to form

Answer: hydrogen peroxide

Question: In space craft, hydrogen gas is used as cells for generating electrical energy.

Answer: fuel

Question: Hydrogen reacts with alkali metals to form one of the following

Answer: hydrides

Question: All matter are made up of atoms which consists of principally three fundamental particles which are itemised thus

Answer: electrons, protons and neutrons

Question: An atom that has accepted an electron(s) and have net negative charge is called

Answer: anion

Question: In metallurgy, hydrogen reduces metal oxides to

Answer: metals
