

The Void In Man

If you're a Christian and you don't believe in the supernatural, that is; in the spiritual, then you're lost. If you're not walking in line with the spirit of God, you're on a lost course. The age we're in now is a spiritual age where all spirits are manifesting themselves in various forms, you no longer need a carved idol to harbor a spirit, because spirit dwells in the hearts of men. They find expression through the activities they carry out through the medium they possess.

Every human is a carrier of spirit entities, whatever we do in the flesh is already orchestrated in the spiritual. The heart of man is a void waiting to be filled, it cannot be left empty. When a man is born of flesh, the void in his heart is being filled with darkness, for him to walk with God he must vanquish every darkness in his heart with the light of God.

The moment a man receives the gospel to heart, a transformation, a transaction is being undergone. Though his heart is full of darkness, a portion of his heart has been purchased by God giving him a deposit of life, an illuminating life in the midst of that void of darkness. He has been given light, it is then left for him to contain and expand this light through God's word and also to guard this light through prayers, preventing it from being swallowed up by the darkness in his heart. If this light is gone, it might take a long time for him to get it again, because he does not find it, it finds him.

Walking with God it's not difficult with the help of the holy spirit, of course darkness will always try to swallow up your light, but it is up to the man. Every man must feed his light with more life (God's word) so it can expand. It's just like adding more wood and fuel to the camp fire. If your light goes out in the wilderness, you'll be torn by beast.

The more you obey the more you're given faith to be faithful in keeping up the fire, the more you spend time in God's presence, the more His glory covers you, the more you're filled with His life. As His life fills your heart, the void in your heart is dominated with light and every darkness begins to fade, the more darkness fades away, the less resistance you'll get.

When you're filled with light, you'll be filled with the holy spirit to live a holy life where all spirit of sin has been neutralized and a new life in Christ Jesus has been given. The darkness that functions in a man bringing spiritual death will be replaced with life overflowing.

When a man's void is filled with light, he is then called to act by God, everything he does is of life, he becomes a channel of life where there is death, a channel of light where there is darkness. Out of the abundance of life he has, he gives life for the salvation of men, out of the abundance of life, he can bring life unto any dead situation, he can bring light into a territory of darkness, breaking the foundations and alters of principalities and rulers of darkness, he becomes a deliverer, a valiant warrior of God, destroyer of civilization of darkness.
