WHAT I CAN DO

Activity II: SOCIOLOGICAL INVESTIGATION!

DIRECTIONS: Read and answer the question properly. Come up with a proposition and provide supporting details such as facts, statistics, examples, and statements from expert authority.

1. During the enhanced community quarantine in your barangay, how did the local governmment unit utilize the taxes, funds, and resources in your community?

PROPOSITION/SUPPORT OUTLINE FOR REDISTRIBUTION OF RESOURCES IN YOUR BARANGAY DURING ECQ.

STATEMENT:

Our community's taxes, funds, and resources were mindfully used during the enhanced community quarantine in our barangay.

SUPPORT:

FACTS:

- ✓ When the enhanced community quarantine was implemented, our barangay made certain that each home received grocery items such as rice, canned goods, noodles, and some toiletries.
- ✓ Each family who is earning below minimum wage in our barangay was financially supported so that their needs will be somehow covered with the small amount that the barangay gave to them.
- ✓ No one in our barangay complained about a lack of support or the misallocation of government money during the enhanced community quarantine.

STATISTICS:

- ✓ According to the report in our barangay, Ayuda was supplied to 100% family household during the community quarantine.
- ✓ Based on the report in our Municipality, our barangay is really the only one that did not get complaints about a lack of assistance or misallocation of government funds during the expanded community quarantine, with 98% votes.

EXAMPLES:

- ✓ There is a truck with a speaker that is taking a *ronda* through our barangay announcing that they are going to distribute Ayuda to every household so that the whole community is aware and prepared for the mentioned ayuda distribution.
- ✓ The barangay distributes the ayuda every three days to

	ensure that all households are assisted despite the limited amount of commodities.
	EXPERT AUTHORITY: ✓ The barangay official assured everyone that they would do everything possible to meet the needs of every home throughout the quarantine. They also expressed their hope that everyone will abide by the guidelines that have been put in place. Lastly, they told to be patient since everyone will be helped.
	LOGIC AND REASONING: ✓ Some families refused to take the Ayuda that the barangay offered them because they believed that many households needed Ayuda, so they only gave it to those who needed it the most, such as a household with many family members, and so on.
