All responses used in Word Association Test Solved eBook are collected from recommended candidates and SSBCrack experts. Candidates may or may not face the same words in WAT, responses given are just for reference and knowledge purposes. Using the same response doesn't guarantee a recommendation. Candidates are advised to stay original while writing responses at SSB.

What Is Word Association Test [WAT]?

Word Association Test (WAT) is the second test in Psychologist test series at Service Selection Boards, this is one of the tests used by test psychologist to read the personality which a candidate possesses. In WAT you will be shown a word and you are required to write a sentence using that word which comes to your mind first. On seeing a word there might be different ideas in your mind related to that word but you must write the first spontaneous reaction in your answer sheet. The Time limit is restricted to 15 Seconds so that candidate is not confused with subsequent thoughts and give his first thought only.

No. of Words in WAT - 60

Time of each Word - 15 Seconds

- You are required to complete 60 words, each word will be shown for 15 seconds and within these 15 seconds you have to write your thought in answer sheet provided to you.
- Time limit is short (15 secs for each word) to ensure that the candidate gives his first reaction which comes to his mind.
- Below we have provided 100 WAT solved original words which you are going to face at SSB interview. You can find the responses on each word by recommended candidates. We want to make sure that candidates should not take these responses for granted, these responses are just to familiarize you with how a response should be made based on one's personality.
