Based on the climatic data given above answer the following questions.

- Which climatic station shows the Mediterranean type of climate?
A. Station A B. station B C. station C. D. station D
- The driest season for station A is
A. winter B. summer C. spring D. autumn
- Which of the following is the most likely prevailing wind in station A?
A. Equatorial westerly B. equatorial easterlies C. trade winds D. all except C
- In which of the following rain fall region is station b is represented?
A. Spring and autumn B. spring and autumn C. winter and autumn D. summer and winter
- Which of the following station of Ethiopia does station c represents?
A. South west highland B. north west highland C. central highland D. southeast highland
- Which one of the following forests is more likely to occur in the region represented by station c?
A. gallery forest B. juniper forest C. pod carpus forest D. broad leafed rain forest
- To which climatic zone does the region represented by station c belongs to:
A. Wurch B. dega C. woina dega D. qolla
- Station a is most likely located in:
A. South Africa B. central Africa C. eastern Africa D. North Africa
- Which of the station is more probably located in a region that can be described as tropical hot desert?
A. station C B. station D C. station A D. station B
- Which station is located in a region that can support equatorial rain forests?
A. Station C B. station D C. station A D. station B
- Which type of rain fall is common in station C?
A. Orographic B. cyclonic C. convectional D. frontal
- Comparatively which station is common in supporting olive trees?
A. Station C B. station D C. station A D. station B
- The average annual temperature of station A is
A. 15.1 ⁰C B. 25.1 ⁰C C. 18.1 ⁰C D. 17.1⁰C
- The annual range of temperature of station A is A. 15⁰C B. 12⁰C C. 14⁰C D. 10⁰C
- Which season is the wettest in station A
A. Spring B. winter C. summer D. autumn
- Which of the following winds are the most likely source of rain fall in station B
A. South westerly B. north westerly C. south easterly D. north easterly
- Which month is the hottest in station A
A. August B. march C. April D. October
- Which of the following type of animals is common in station C?
A. lion B. apes C. elephant D. walia ibex
- Which type of soil is very common in station C?
A. Ferrosols B. regosols C. acrisols D. yermosols
- Which station represents warm and wet climatic condition?
A. Station C B. station D C. station A D. station B
