

Task1: 10 minutes

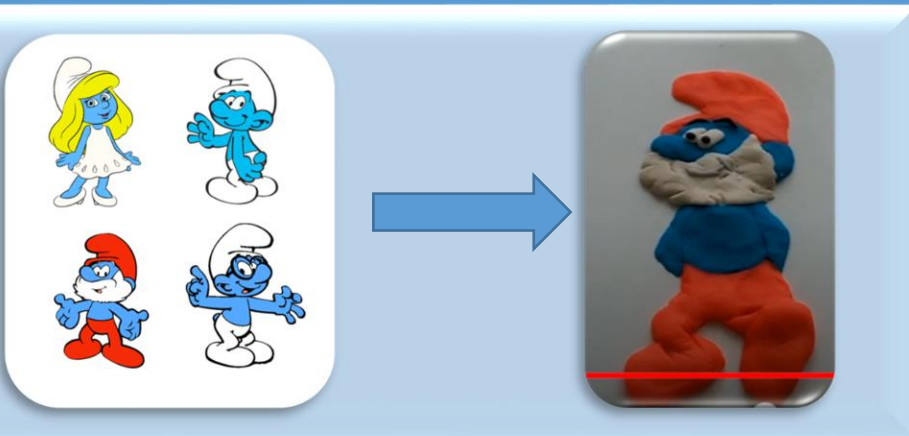

Clay models

Task 1: Create your Smurf model with clay.

Your first task is create a clay 3D model of the Smurf you like the most.

Choose any one character out of the given options and apply clay on it.

Stick on the wooden stick.

Task 2: 20 minutes

Task 2: Smurfs Eco City.

Create your Eco City drawing representing SDG Goal 11- Sustainable Cities and Communities

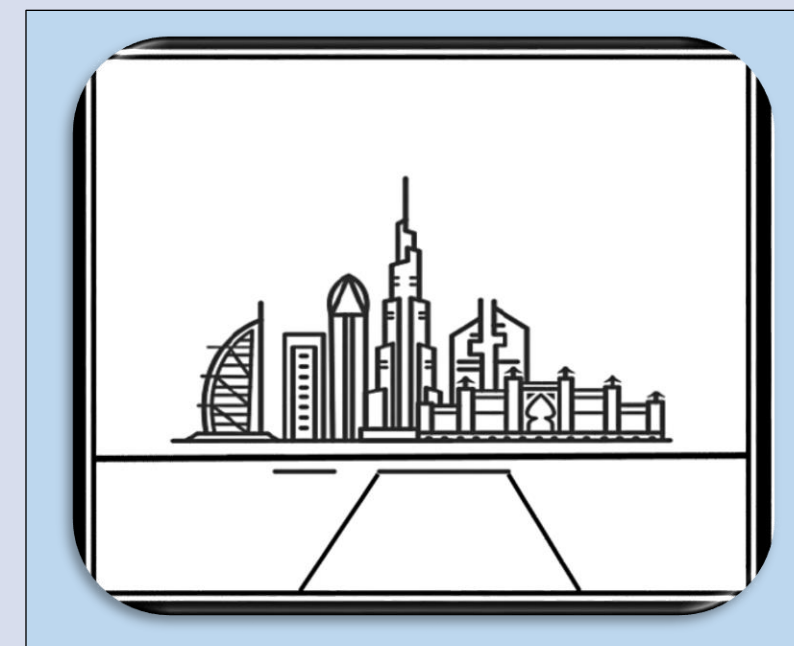

Your first task is to imagine and describe your special Smurfs Eco Town.

Is there a lot of sand or water? Are there

small or big trees? Where will the food come from?

Perhaps, your Smurfs Eco Town has a lot of space for many wild animals?

Are they underwater or on the ground?

Task 3: 15 minutes

Task 3. Healthy Food plate.

SDG Goal 3: Good Health and Wellbeing. Now, we will focus on the healthy food habits. So think about the food we will get in this Eco City.

Are we going to buy junk food items to keep our self-healthy?

OR

We should give preference to fruits, vegetables and homemade food.

Choose one of the options given to you on the right hand side and design your healthy food plate. Create clay food items and paste them in your plate.
