26. All are the basic criteria of evaluating argument except _____
    A. The existence factual claim
    B. Inferential link between Premises and Conclusion
    C. The reasoning process
    D. The mere existence of indicator words
27. Last month in his speech, the President of Ethiopian Olympic Sport Dr. Ashebir, said that "Abebe Bikila had been won Olympic Gold Medal in Marathon race of Tokyo. Therefore, Ethiopian athletes will win Marathon race of 2020 prepared by Japan in Tokyo". The argument of Dr. Ashebir is
    A. Inductive, Strong
    B. Inductive, Weak
    C. Deductive, Valid
    D. Deductive, invalid
28. In which of the following combinations valid deductive argument does **not** occur?
    A. If the premise(s) is/are presumed true and then the conclusion is false.
    B. If the premise(s) is/are presumed true and then the conclusion is true.
    C. If the premise(s) is/are presumed false and then the conclusion is true.
    D. If the premise(s) is/are presumed false and then the conclusion is false.
29. Which of the following alternative contain all argumentative forms?
    A. Expository passages, reports, pieces of advice.
    B. Illustrations, syllogisms, explanations.
    C. Predictions, categorical syllogisms, arguments from signs.
    D. Warnings, conditional statements, statements of belief.
30. Pertaining Philosophy and Logic which one of the following is false statement?
    A. Philosophers use Logic to construct their own argument and to evaluate the arguments of others.
    B. Philosophy and Logic deals about far apart concepts and views
    C. It is not possible to be a Philosopher without having the concept of Logic
    D. As compared to Logic, Philosophy is more comprehensive

III -Choose the best answer from the given alternatives (1 pts each)

21. Which of the following is false about argument forms?
    A. The idea of conclusion goes beyond the idea of premises under inductive argument.
    B. Mathematical expression like statistics is interpreted as inductive argument.
    C. The meaning of premise and conclusion is the same under argument based on definition.
    D. Inductive arguments are wrong because there is weak inferential claim.
22. While distinguishing premise and conclusion of argument raising questions like; what a single statement claimed to follow from others? Or what is the central point of the argument? will help us to identify all except _____
    A. The existence of reasoning process
    B. Conclusion of argument
    C. Passing comment
    D. Inferential claim
23. From the following statement which one is false about argument?
    A. Invalid deductive arguments are unsound
    B. All unsound deductive arguments are invalid
    C. Sound deductive arguments are valid
    D. Validity of an argument is determined by actual truth of statement in the argument
24. All of the following are correct statements, except.
    A. If the premises necessary support the conclusion, such argument is deductive
    B. A single conditional statement is an argument.
    C. All passages that contain indictor words may or may not be an argument.
    D. All statements are sentences but not all sentences are statements.
25. All Ethiopians are Speak English language. All Kenyans are Ethiopians. Therefore, all Kenyans are speaking English language. This argument is
    A. Deductive, Valid and Sound
    B. Inductive, Strong and Cogent
    C. Deductive, Invalid and Unsound
    D. Deductive, Valid and Unsound

I. Write 'True' if the statement is correct, and 'False' if it is incorrect (1 pt each).

1. Rationalism is a theory of epistemology argues that sense-observation is the source of knowledge.
2. In deductive argument, a certain argument is valid as long as the conclusion is probably followed from the premises.
3. Philosophical questions are specific and merely a question of facts.
4. A deductive argument having true premise and false conclusion can be both valid and invalid.
5. Learning philosophy lead students to become critical and rational thinker.
6. Some conditional statements can be re-expressed to form an argument.
7. Mastering the content and arguments of other philosophers is a best way to be a philosopher.
8. Always deductive argument constructed by the form on syllogism contains exactly two conclusions and one premise.
9. "For this reason" is a special indicator that came immediately after premise and before conclusion in argumentative passage.
10. All non-argumentative passage has no means of being argumentative passage.
11. Good arguments appear as a result of actual truth of statements in argumentative passage.

II. Match the concepts stated under column "A" with their respective with their respective phrases/words under "B" column (1pt each).

A	B
12. The study of nature and purpose of God	A. Empiricism
13. Theory of Values	B. Anthropological aspect
14. Deals about mind-body problem	C. Ontological aspect
15. The study about nature, scope and meaning knowledge	D. Theology
16. A science of correct reasoning	E. Intuition
17. Sense experience is the source of knowledge	F. Cosmological
18. The study of the nature of existence	G. Logic
19. The study of origin, nature, and development of the universe	H. Epistemology
20. Direct or immediate apprehension	I. Axiology
