## Scheme components

- The oil palm farmers produce Fresh Fruit Bunches (FFBs) from which oil is extracted by the industry.
- Presently the prices of these FFBs are linked to the international CPO prices fluctuations.
- For the first time, the Government of India will give a price assurance to the oil palm farmers for the FFBs.
- This will be known as the Viability Price (VP).
- This will protect the farmers from the fluctuations of the international CPO prices and protect him from the volatility.

| --- | --- |

- This VP shall be the annual average CPO price of the last 5 years adjusted with the wholesale price index to be * 14.3 %.
- will be fixed yearly for the oil palm year from 1st November to 31st October.
- will inculcate confidence in the Indian oil palm farmers to go for increased area and thereby more production of palm oil.
- A Formula price (FP) will also be fixed which will be 14.3% of CPO and will be fixed on a monthly basis.

|---|---|

- The viability gap funding will be the VP-FP
- if the need arises, it would be paid directly to the farmers accounts in the form of DBT.
- The assurance to the farmers will be in the form of the viability gap funding and the industry will be mandated to pay 14.3% of the CPO price which will eventually go up to 15.3%.

|---|---|

- There is a sunset clause for the scheme which is 1st November 2037. To give impetus to the North-East and Andaman, the Government will additionally bear a cost of 2% of the CPO price to ensure that the farmers are paid at par with the rest of India.
- The states who adopt the mechanism proposed by the Government of India would benefit from the viability gap payment proposed in the scheme and for this they will enter into MoUs with the Central Government.
