A. Avoidance- Avoidance Conflict C. Approach -Approach conflict

B. Approach -avoidance conflict D. Multiple approach-avoidance conflicts

10. Salivation of dog to the food

A. Neutral Stimulus C. Unconditioned Stimulus

B. Unconditioned response D. Conditioned Stimulus

PART-III

Match items in column 'A' with items in column 'B'

Column "A"	**Column "B"**
11. Deliberate forgetting noxious experience	A. Projection
12. Retreating away from adulthood behavior	B. Repression
13. Giving a reason different from the real one	B. Sublimation:
14. Participate in socially constructive schedule	C. Regression
15. Explaining the direct opposite of the motive	D. Reaction Formation
	F. Rationalization

PART-IV Short Answer Questions

INSTRUCTION: Read the following questions thoroughly and then answer them briefly according to the specific instruction provided.

1. Explain the differences between correlational and experimental research.

_____
_____
_____
_____
_____

2. A researcher wants to study the effect of drinking coffee on the academic achievement of students. In this study _____is independent variable and _____is dependent variable.

3. Write at least five characteristics of learning.

_____
_____
_____
_____
_____

4. Write at least four Factors that can Affect Memory

1_____2._____
3_____4_____

5. Explain the differences between sensation and perception research

_____
_____
_____
_____
_____

6. Suppose a one-year old child is playing with a toy near an electrical out -let. He sticks part of the toy into the outlet. He gets shocked, becomes frightened, and begins to cry. For several days after that experience, he shows fear when his mother gives him the toy and he refuses to play with it. What is the UCS? UCR? CS?CR?

a) UCS_____

b) UCR_____

c) CS_____

d) CR_____

7. Describe components /elements/ of emotion.

_____

_____

_____

8. Write the two characters of long term memory that distinguishes it from short term memory

_____

_____
