28. How can air pollution prevented?

Our beloved students how are you, it is better for you to read your text book in detail after that answer the review question this and return to the notes in the text book if you have doubt or forget the answer in each questions.

I planned to give you two or three weeks of class discussions to wind up our lesson and complete the academic year by final exam. For this matter you had better study hard; don't worry we will come back class soon after 2012. But remember to be at home and take a great care. Believe me you are expected to remove ups and downs of this blessed and beautiful country.
