

1. What data models can you use in SAP Analytics Cloud? Note: There are 2 correct answers to this question.

- a. Predictive model
- b. Analytic model
- c. Universe model
- d. Planning model

2. To what dimensions can you apply calculations? Note: There are 2 correct answers to this question.

- a. Account
- b. Cross calculation
- c. linked calculation
- d. Organization

3. Where can you change account information? Note: There are 2 correct answers to this question.

- a. SAP Analytics Hub
- b. Allocations
- c. User list
- d. User profile

4. When you create a new user, which privileges does this user receive by default?

- a. System privileges associated with the user's default role(s)
- b. System privileges associated with the user's team
- c. System privileges associated with the user's special role

5. What aggregation types are possible in SAP Analytics Cloud? Note: There are 2 correct answers to this question.

- a. Range
- b. Standard
- c. Field
- d. Exception

6. In which panel can you change the general appearance of a page in a story?

- a. Builder

b. Styling

c. Visualization

d. Chart

7. Which SAP Analytics Cloud tool do you use to build dashboards?

a. SAP Analysis for OLAP

b. SAP Business Objects Web Intelligence

c. Analytical Application

d. SAP Lumira Discovery

8. What can you use to access content in SAP Analytics Cloud? Note: There are 2 correct answers to this question.

a. SAP Analytics Hub

b. SAP Digital Boardroom

c. SAP Data Hub

d. SAP Data Intelligence

9. What filter CANNOT be used to narrow the analysis scope?

a. Dimension filter

b. Story filter

c. Model filter

d. Page filter

10. On what levels can you use linked dimensions? Note: There are 2 correct answers to this question.

a. Story level

b. Page level

c. Model level

d. Component level

11. Which of the following objects must have an owner? Note: There are 3 correct answers to this question. O Import file

a. Story

b. Dimension

c. Analytical application

d. Folder

12. When you create a model, which functions are possible with data wrangling? Note:

There are 2 correct answers to this question.

- a. Concatenate
- b. Create hierarchies
- c. Find and replace
- d. Blend models

13. Which connect on can you use to create a new replicative data model?

- a. Import data connection
- b. Cloud connection
- c. Direct connection
- d. Universe

14. When you create a model in SAP Analytics Cloud, which feature helps you both identify errors and categorize dimensions and measures?

- a. Smart Insights
- b. Smart Assist
- c. Machine learning
- d. Auto validation

15. What can an asset in the SAP Analytics Hub contain? Note: There are 2 correct answers to this question.

- a. Dimension
- b. Tag
- c. URL
- d. Model

16. In basic story design, which mathematical predictions can you choose manually to create a forecast? Note: There are 2 correct answers to this question.

- a. Exponential smoothing
- b. Extrapolation
- c. Moving average
- d. linear regression

17. Which story elements are supported in the mobile app of SAP Analytics Cloud? Note:

There are 3 correct answers to this question.

- a. Numeric point
- b. Clock
- c. Chart
- d. Data View
- e. Shape

18. In which panel can you change data settings of a story component?

- a. Data
- b. O Chart
- c. Visualization
- d. Builder

19. Which basic columns or attributes are common to dimensions? Note: There are 3 correct answers to this question.

- a. ID
- b. Hierarchy
- c. levels
- d. Description
- e. Notes

20. What page types are supported in the Digital Boardroom? Note: There are 2 correct answers to this question.

- a. Grid
- b. layers
- c. Canvas
- d. Responsive

21. Which items can you export via file from SAP Analytics Cloud? Note: There are 2 correct answers to this question.

- a. Templates
- b. Connection credentials
- c. My files
- d. Boardroom agendas

22. In a model, which predictive confidence level indicates a robust prediction and is therefore marked green?

a. 87%

b. 78%

c. 95%

d. 50%

23. Which feature does the Smart Assist suite support?

a. Planning

b. Enterprise Intelligence

c. Machine learning

d. Natural Language Query

24. Which collaboration functions can you use in SAP Analytics Cloud? Note: There are 3 correct answers to this question.

a. Calendar functions

b. Discussions

c. Chat

d. Inbox message

e. Comment

25. In SAP Analytics Cloud Analytic Designer, what can you enrich through scripting? Note: There are 3 correct answers to this question.

a. Predictive

b. SAP Analytics Hub

c. Planning

d. Cloud parameters

e. Smart discovery

26. Another user has uploaded an Excel file to the public folder.

To create a model from this file, what must you do first?

a. Create a new Data Action on this file.

b. Create a new dataset pointing to this file.

c. Download the file from the Public folder to your computer.

27. What are advantages of using models? Note: There are 2 correct answers to this question.

a. Facilitating geospatial data enhancement

- b. Designing a story
- c. Blending and wrangling data
- d. Maintaining the separation between on-premise and cloud data

28. In a geo map, how does a choropleth layer present data?

- a. It shows connections between two locations.
- b. It uses color to visualize data density.
- c. It shows data as points on the map.
- d. It applies blocks of shading to locations.

29. What page types can you create for basic stores? Note: There are 3 correct answers to this question.

- a. Standard
- b. Application
- c. Canvas
- d. Grid
- e. Responsive

30. Which collaboration type is supported by SAP Analytics Cloud? Note: There are 3 correct answers to this question.

- a. Project groups
- b. Comment
- c. Discussion
- d. Chat
- e. Calendar

31. When you use a reverse proxy connection, which SAP Business Object server requires additional information?

- a. Adaptive job server
- b. Central management server
- c. Web application server
- d. Connection 32 server

32. Which transformations can you use in the data modeler? Note: There are 3 correct answers to this question.

- a. Change

- b. Insert
- c. Split
- d. Extract
- e. Remove

33. What is the main difference between a model based on a live connect on and a model based on a replicative data import?

- a. Storage location
- b. Data source
- c. Performance
- d. Data refresh

34. What does SAP recommend you do before you access SAP Analytics Cloud for the first time? Note: There are 2 correct answers to this question.

- a. Create a special user.
- b. Install Adobe Acrobat Reader.
- c. Register an account.
- d. Install Google Chrome

35. Which feature uses artificial intelligence to create recommendations based on historical data?

- a. Smart Insights
- b. Smart Predict
- c. Smart Discovery
- d. Search to Insight

36. Which minimum technical client requirements does SAP recommend to display reports in SAP Analytics Cloud? Note: There are 3 correct answers to this question.

- a. HTTP 1.1 connect on
- b. JavaScript disabled
- c. Cookies disabled
- d. At least 250 MB browser cache
- e. At least 500 kbit/sec connection speed

37. Which of the following are augmented capabilities in SAP Analytics Cloud? Note: There are 3 correct answers to this question.

- a. Smart Insights
- b. Intelligent Predictive to Insight
- c. Smart Predictive
- d. Smart Analysis Insight
- e. Search to Insight

38. In SAP Analytics Cloud, you have blended two models in a story. What is a consequence?

- a. A new model is created.
- b. The links between the models can be used in other stories.
- c. The links between the models can be used in that story only.
- d. The original models are modified.

39. Which connector is required to import data from an SAP Business Objects BI platform to SAP Analytics Cloud?

- a. SAP BOE live Data Connector
- b. SAP CP Cloud Connector
- c. Java Connector
- d. SAP Analytic Connector

40. Which SAP Analytics Cloud object offers exception aggregation?

- a. Model
- b. Value driver tree
- c. Data action
- d. Version management

41. Which SAP Business Warehouse query feature can you use within an SAP Analytics Cloud Business Warehouse live connection?

- a. Multiple data dimensions
- b. Level-based hierarchy on dimensions
- c. Planning models
- d. Hierarchy on measure

42. Which data source can you use with an SAP Analytics Cloud live connection? Note:

There are 3 correct answers to this question.

- a. SAP BW/4HANA
- b. SAP Business Objects Universe

- c. SAP Business Planning and Consolidation
- d. Flat file
- e. Analysis view

43. What are the main components of SAP Analytics Cloud Business Intelligence? Note:

There are 3 correct answers to this question.

- a. Analytic Applications
- b. Predictive Scenario
- c. Stories
- d. Planning
- e. Models

44. Which filter type can be converted to a story filter?

- a. Data filter
- b. Page filter
- c. Query filter
- d. Component filter

45. What are the key components of the Intelligent Enterprise? Note: There are 3 correct answers to this question.

- a. Data intelligence
- b. Digital platform
- c. Business process management
- d. Intelligent technologies
- e. Intelligent suite

46. Which connector must you configure to use a live connection to an SAP Business Objects universe?

- a. Cloud connector
- b. SAP Analytics Connector
- c. SAP BOE live Data Connect
- d. SAP COR Direct Connector

47. Which feature generates story pages?

- a. Smart Predict
- b. Smart Insights

- c. Smart Discovery
- d. Search to Insight

48. Which of the following filters affects only one chart in SAP Analytics Cloud?

- a. Data filter
- b. Story filter
- c. Page filter
- d. Widget filter

49. Which Smart Assist features are available for live models? Note: There are 2 correct answers to this question.

- a. Smart Discovery
- b. Time series forecasting
- c. Smart Grouping
- d. Smart Insights

50. In a story, what can you scale across multiple charts?

- a. Measures
- b. Attributes
- c. Chart types
- d. Dimensions

51. You are importing users from a file.

What file types supported?

- a. XML
- b. XLSX
- c. CSV
- d. XLS

52. Which of the following tools enable SAP Analytics Cloud to offer augmented analytics?

Note: There are 3 correct answers to this question.

- a. SAP Analytic Hub
- b. Search to Insight
- c. Smart Insight
- d. Smart Discovery
- e. Predictive Scenario

53. Which of the following SAP BW/4HANA query features are supported in a live connect on? Note: There are 3 correct answers to this question.

- a. Exit variables
- b. Conditions
- c. Expressions
- d. Initial layout
- e. SAP BW/4HANA structures

54. Where are versions stored in a planning model?

- a. Allocation
- b. Account
- c. Category
- d. Time dimension

55. Which cloud edition is available for SAP Analytics Cloud?

- a. Hybrid cloud
- b. Enterprise cloud
- c. Private cloud
- d. Public cloud

56. In SAP Analytics Cloud, what can you do when you create an analytic application? Note: There are 3 correct answers to this question.

- a. Acquire data from source systems
- b. Select between Responsive and Canvas pages
- c. Customize scripts
- d. Configure widgets
- e. Define the data model

57. Which of the following are except on aggregation types? Note: There are 3 correct answers to this question.

- a. CONCATENATE
- b. TRIM
- c. MIN
- d. FIRST
- e. SUM

58. What is the purpose of roles?

- a. To manage distribution of user licenses
- b. To provide users with steps to complete tasks
- c. To define activities users may perform
- d. To organize users into groups

59. In SAP Analytics Hub, which of the following can you use to display dynamic reports?

Note: There are 3 correct answers to this question.

- a. SAP Analytics Cloud stores
- b. Microsoft Excel
- c. SAP Lumira Designer application
- d. SAP Business Objects Crystal Reports
- e. SAP Business Objects Workspaces

60. Which feature uses machine learning technology to enable natural language questions?

- a. Smart Insights
- b. Smart Predict
- c. Smart Discovery
- d. Search to Insight

61. In which global performance indicators does Smart Predict divide predictive models?

Note: There are 2 correct answers to this question.

- a. Prediction Accuracy
- b. Prediction Confidence
- c. Predictive Statistics
- d. Predictive Power

62. What are special features of planning models? Note: There are 3 correct answers to this question.

- a. They require a time dimension.
- b. They support categories.
- c. Can create currency conversion tables.
- d. They can incorporate allocations.
- e. They support version management.

63. Which provider offers SAP Analytics Cloud as platform as a service (PaaS)?

- a. Amazon Web Services
- b. Telekom Web Services
- c. IBM Cloud Solution
- d. Google Web Services

64. Which page type is supported in the mobile app of SAP Analytics Cloud?

- a. Canvas
- b. Web
- c. Responsive
- d. Grid

65. Which of the following are capabilities of Augmented Analytics? Note: There are 3 correct answers to this question.

- a. Smart Predict
- b. Secure Distribution
- c. Hybrid Bursting
- d. Search to Insight
- e. Smart Insights

66. What is the minimum security requirement to administer SAP Analytics Cloud?

- a. Folder
- b. Role
- c. System owner
- d. Team

67. Which license types can you use to access SAP Analytics Cloud? Note: There are 3 correct answers to this question.

- a. Trial
- b. Predictive
- c. Business Intelligence
- d. Planning
- e. Professional

68. In the SAP Analytics Cloud, which menu path must you use to access license information?

- a. Security -> Activities -> Status

- b. Browse -> Processes -> Allocations
- c. System -> Monitor -> Overview
- d. Security -> Users -> licenses

69. What do bookmarks include?

Note: There are 3 correct answers to this question.

- a. Data sources
- b. Filters
- c. Input controls
- d. Prompts
- e. Comments

70. Which connect on types can you use to import data from an SAP Business Warehouse system into SAP Analytics Cloud? Note: There are 2 correct answers to this question.

- a. Direct cloud connection
- b. Imported data connection
- c. live connection
- d. Story connection

71. In the SAP Analytics Cloud, which menu path must you use to import a file?

- a. Security -> Users
- b. System -> Administration
- c. Security -> Activities
- d. Deployment -> Import

72. Which content type is supported by SAP Analytics Cloud export?

- a. Point of interest
- b. My folder
- c. Content dependencies
- d. Public folder

73. Which function does Smart Predict support?

- a. Aid with trend data
- b. Plan on data
- c. Explain data
- d. Visualize of data

Overview and Positioning

74. Which feature enables you to display details about a data point in a chart?

- a. Smart Predict
- b. Smart Discovery
- c. Smart Insights
- d. Search to Insight

75. What are the core functions of Business Analytics in SAP Analytics Cloud? Note: There are 3 correct answers to this question.

- a. Business Intelligence
- b. Planning
- c. Analytics
- d. Agility
- e. Predictive

76. Which of the following are advanced scripting capabilities? Note: There are 2 correct answers to this question.

- a. Content assistance with Alt+Space
- b. HTML generation
- c. Auto complete
- d. Syntax check

77. In Graphical Design , what can you do with scripting? Note: There are 2 correct answers to this question.

- a. Switch between chart and table at view time.
- b. Organize widgets on the canvas.
- c. Implement cascading filter behavior.
- d. Display popup dialogs.

78. For locations outside the USA, what is a prerequisite for the enrichment of geo maps?

Note: There are 2 correct answers to this question.

- a. ZIP code
- b. Longitude coordinates
- c. Area name
- d. Latitude coordinates

79. When a user is assigned to a team, which user attribute changes?

- a. User rights
- b. User name
- c. User ID
- d. User license

80. Which object can you use for permission assignments?

- a. Models
- b. Teams
- c. Roles
- d. Users
