To Harambee University Health Faculty

Adama Main Campus

Subject Line: - Informing the Students Class Attendance Status

As stated on the Subject line, we have given the attendance to monitor or control the students intentionally absent from the class. So that, I identified the students absent from their regular class both for the course Communicable disease control and Research Methodology. Therefore, I kindly request you, to take crucial measures based on universities rule and regulation or guideline. To conclude this, I will wait for a final decision made by to permit the student to sit for final exam and to do a grade report.

With Best Regards
