SN	CRSCODE	QUESTION	OPTION A	OPTION B
1	ANP201	_____ is defined as the application of scientific and engineering principles to the processing of material by biological agents to provide goods and services'	Biology	Biotechno
2	ANP201	The history of biotechnology begins with _____	Zymotechn	Zoology
3	ANP201	The oldest biotechnological processes are found in _____	microbial f	bacterial
4	ANP201	Enzymes from yeast can convert sugar to alcohols which may include all except	Butanol	Acetone
5	ANP201	_____ made the beginning of animal tissue culture technique in 1907 using frog tissue	Jack Russel	Marim Makeba
6	ANP201	_____ is the specific allelic combination for a certain gene or set of genes	Phenotype	Genotype
7	ANP201	An individual which contains only one allele at the allelic pair is known as _____	Phenotype	Genotype
8	ANP201	_____ is an individual which contains one of each member of the gene pair	Phenotype	Genotype
9	ANP201	According to the principle of _____, for any particular trait, the pair of alleles of each parent separate and only one allele passes from each parent on to an offspring	segregatio	independe
10	ANP201	_____ is sometimes called "the blueprint of life"	RNA	Brain
