QUESTION ONE: THE TEACHING AND LEARNING COMMUNITY

- 1.1 Define what is meant by a “Professional Learning Community” (PLC). (5)
- 1.2 Look at the nine (9) components of a PLC (below). Choose five (5) of the PLC components from the diagram, and explain what these five components tell us about how a PLC functions to improve teaching and learning at a school. (15)

- 1.3 Read this complaint from a teacher¹:

“My brother and sister teachers, it is clear that the work we are doing in this school is not up to standard. We teachers are not performing well, and we lack the required level of work ethics. The community, the parents, and the education authorities expect so much from us, but do not always provide us with the support and the guidance we need. We all go page-by-page through the textbook, but our learners still do not cope. But there is hope! There is a lot that we can do for ourselves, here at the school, to improve this situation. It is surely time for us to start our own Professional Learning Community”.

- a. How can starting a PLC at the school (mentioned above) benefit the **teachers**? (5)
- b. How can starting a PLC at this school benefit the **learners**? (5)
