Books Infographics

Here is where this template begins

Books Infographics

01

Jupiter

Jupiter is the biggest planet of them all

02

Mars

Despite being red, Mars is a cold planet

03

Venus

Venus has a beautiful name, but it’s hot

04

Saturn

Saturn is composed of hydrogen and helium

Books Infographics

Jupiter

Jupiter is a gas giant and also the biggest planet in the Solar System

Mercury

Planet Mercury is the closest object to the Sun and also the smallest

Books Infographics

01

Jupiter

Jupiter is a gas giant and also the biggest planet in the Solar System

03

Mercury

Planet Mercury is the closest object to the Sun and also the smallest

02

Mars

Despite being red, Mars is a very cold planet full of iron oxide dust

04

Saturn

Saturn is a gas giant composed mostly of hydrogen and helium

Books Infographics

Jupiter

1

Jupiter is a gas giant and also the biggest

Venus

2

Venus has a beautiful name, but it’s hot

Mars

3

Despite being red, Mars is a cold planet

Saturn

4

Saturn is composed of hydrogen and helium

Books Infographics

JUPITER

Jupiter is a gas giant and also the biggest planet in the Solar System

VENUS

Venus has a beautiful name and is the second planet from the Sun

MARS

Despite being red, Mars is a very cold planet full of iron oxide dust

SATURN

Saturn is a gas giant composed mostly of hydrogen and helium

Books Infographics

Jupiter

A

Jupiter is a gas giant and also the biggest planet of them all

Mercury

B

Mercury is the closest object to the Sun and also the smallest

Saturn

C

Saturn is a gas giant composed mostly of hydrogen and helium

Mars

D

Despite being red, Mars is a very cold planet full of iron oxide dust

Books Infographics

MARS

Despite being red, Mars is a very cold planet full of iron oxide dust

MERCURY

Mercury is the closest object to the Sun and also the smallest

JUPITER

Despite being red, Mars is a very cold planet full of iron oxide dust

VENUS

Venus has a beautiful name and is the second planet from the Sun

NEPTUNE

Neptune is the farthest planet from the Sun

SATURN

Saturn is a gas giant composed mostly of hydrogen and helium

Books Infographics

A
Despite being red, Mars is a cold planet

B
Jupiter is the biggest planet of them all

C
Venus has a beautiful name, but it’s hot

A
Saturn is composed of hydrogen and helium

B
Neptune is the farthest from the Sun

C
Mercury is the closest object to the Sun

Books Infographics

01

Despite being red, Mars is a very cold planet

02

Mercury is the closest object to the Sun and the smallest

03

Venus has a nice name and is the second from the Sun

04

Saturn is a composed mostly of hydrogen and helium

Books Infographics

Jupiter

Jupiter is a gas giant and also the biggest

Venus

Venus has a beautiful name, but it’s hot

Mars

Despite being red, Mars is a cold planet

Saturn

Saturn is composed of hydrogen and helium

Mercury

Mercury is the closest object to the Sun

Books Infographics

Jupiter

Jupiter is a gas giant and also the biggest

Mars

Despite being red, Mars is a cold planet

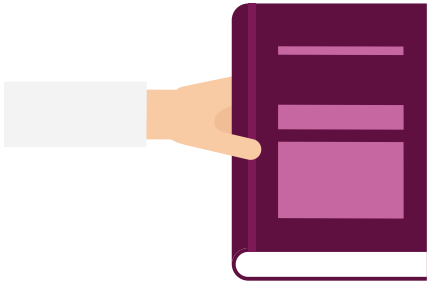

Venus

Venus has a beautiful name, but it’s hot

Instructions for use

In order to use this template, you must credit **Slidesgo** and **Freepik** in your final presentation and include links to both websites.

You are allowed to:

- Modify this template.
- Use it for both personal and commercial projects.

You are not allowed to:

- Sublicense, sell or rent any of Slidesgo Content (or a modified version of Slidesgo Content).
- Distribute Slidesgo Content unless it has been expressly authorized by Slidesgo.
- Include Slidesgo Content in an online or offline database or file.
- Offer Slidesgo templates (or modified versions of Slidesgo templates) for download.
- Acquire the copyright of Slidesgo Content.

For more information about editing slides, please read our FAQs or visit Slidesgo School:

https://slidesgo.com/faqs and https://slidesgo.com/slidesgo-school

Infographics

You can add and edit some **infographics** to your presentation to present your data in a visual

- Choose your favourite infographic and insert it in your presentation using Ctrl C + Ctrl V or Cmd C + Cmd V in Mac.
- Select one of the parts and **ungroup** it by right-clicking and choosing “Ungroup”.
- **Change the color** by clicking on the paint bucket.
- Then **resize** the element by clicking and dragging one of the square-shaped points of its bounding box (the cursor should look like a double-headed arrow). Remember to hold Shift while dragging to keep the proportions.
- **Group** the elements again by selecting them, right-clicking and choosing “Group”.
- Repeat the steps above with the other parts and when you’re done editing, copy the end result and paste it into your presentation.
- Remember to choose the “**Keep source formatting**” option so that it keeps the design. For more info, please visit **Slidesgo School**.
