2016 E.c Burka Bururu Middle Level school 2nd semester General science worksheet#2 for Grade 8

Choose the correct answer from the given alternatives

1.Among the following which one is not part of integumentary system?

A. Skin B. Hair C. Nail D. Liver

2.which oneof the following gland is used to produce breast milk?

A. Ceruminous gland B. Mammary gland C. Sebaceous gland D. Sudoriferous gland

3._____is ability of muscle to give response to stimuli which come from motor neuron and hormone. A. Excitability B. Contractility C. Elasticity D. All

4..Among the following types of bones which one is hard and compact, tubular filled with yellow bone marrow? A. Long bone B. Short bone C. Flat bone D. irregular bones

5..Out of the following which one is u-shaped bone in neck between larynx and chin.

A. Vertebral column B. Hyoid C. Thoracic cage D. Limbs or appendage

6._____is in which there is a break in the continuity of the bone.

A. Fracture B. Leukemia C. Osteoporosis D. Osteoarthritis

7..Out of the following which one is long, sharp, pointed edge and located beside incisors. A. Canines B. Incisors C. Premolars D. Molars

8.Out of the following which one is an inflammation, irritation or erosion of the lining of the stomach. A. Hemorrhoids B. Gastritis C. Constipation D. Diarrhea

9.Which one is a chemical produced in stomach? A. Bile B. HCL C. H_2 SO_4 D. Amylase

10.Which one is correct path of process digestion from mouths to anus1

A.Ingestions --> Digestion --> Absorption --> Assimilation -->Egestion

B.Digestion --> Absorption --> Assimilation -->Egestion --> ingestion

C.Egestion --> Ingestions -->Digestion --> Absorption --> Assimilation D.none

11.Large membrane tube reinforced by using of cartilage is _____.

A. Larynx B. Trachea C. Pharynx D. Alveoli

12.Which structures carry deoxygenated blood from the heart to the lungs?

A. Aorta B. pulmonary1Artery C. Pulmonary Veins D. Capillaries

13.Which of the following mechanisms is the main role of the platelets in your blood?

A. The carriage of carbon dioxide B. The carriage of oxygen C. The clotting mechanism D. Production of antibodies against invasion2

14.Which one of the following is the fusion of the male and female gamete to form a zygote? A.Menstruation B.. Ejaculation C.Pollination D. Fertilization

15.Parasitism is an association where: A. both benefits B. both are harmed C. neither benefits nor is harmed D. one benefits while the other is harmed

16.The collection of living things and non living things is called___

A. Plant B. Animal C. Ecology D. Ecosystem

17.which one of the following is coldest planet found at a distance of 57.9 million k.m from the sun. A. Mercury B. Venus C. Mars D. Jupiter

18.Among the following which one is not terresterial (inner) planet.

A. Saturn B. Mercury C. Venus D. Mars

19..Out of the following planets which one is known as "Red planet".

A. Saturn B. Neptune D. Uranus D. Mars

20.Everything in solar system revolves around the _____.

A. Earth B. Stars C. Moon D. Sun

21.Among the following which one is not a planet of the sun?

A. Meteors B. Saturn C. Mercury D. Earth

22.Which one is the third planet from the sun. A. Mars B. Earth C. Venus D. Jupiter

23.Which one of the following is not true about Terrestrial2planet?

A .They 2have large number of moon than jovian planet

B.They are relatively warmer2than jovian planet

C.They are are farther from the sun2 D.They do not have rings2.

24.A body made up of rock, dust, gases, and ices that orbits the Sun is a

A. Comet B. meteor C. Asteroid D. meteorite

25.Which planet is called morning star?A.venues B.mars C.jupiter D.saturn

26.Sound propagates fastest in___A. gas B. solid C. liquid D. all2

27.sound cannot travel through___A.air B. water C. solid D. vacuum

28.Heat from the sun reaches to Earth by_____

A. radiation B. conduction C. convection D. all3

29.Which of the following is not a method of heat transfer?

A.Convection B. Radiation C. Conduction D.active transport

30.Convection occurs in3_____ A.solid B.liquid C.gas D.B and c

31.which one heat transfer mechanism has no need or require medium?

A.Conductionn B. Convection C.Radiation D.all

32.which of the following are magnetic material? A.Iron& steel B.nickel C.cobalt D.All

33.when heat moves from one object to another object through direct touch is called____ A.Conductionn B. Convection C.Radiation D.all

34.The object which does not have light of its own is____

A. shining mirror B. light bulb C. star D. lighted match bo

35. The splitting of white light into its constituent colors is called_____

A. refraction B. dispersion. C. deviation D. displacement.3
