
COVID-19
Here is where your presentation begins

CONTENTS OF THIS TEMPLATE

Here’s what you’ll find in this **Slidesgo** template:

1. A slide structure based on a multi-purpose presentation, which you can easily adapt to your needs. For more info on how to edit the template, please visit **Slidesgo School** or read our **FAQs**.
2. An assortment of pictures that are suitable for use in the presentation can be found in the **alternative resources slide**.
3. A **thanks slide**, which you must keep so that proper credits for our design are given.
4. A **resources slide**, where you’ll find links to all the elements used in the template.
5. **Instructions for use**.
6. Final slides with:
    7. The **fonts and colors** used in the template.
    8. A selection of **illustrations**. You can also customize and animate them as you wish with the online editor. Visit Stories by Freepik to find more.
    9. More **infographic resources**, whose size and color can be edited.
    10. Sets of **customizable icons** of the following themes: general, business, avatar, creative process, education, help & support, medical, nature, performing arts, SEO & marketing, and teamwork.

You can delete this slide when you’re done editing the presentation.

“We cannot say this loudly enough or clearly enough or often enough: All countries can still change the course of this pandemic”

—DR. TEDROS ADHANOM GHEBREYESUS, WORLD HEALTH ORGANIZATION’S DIRECTOR GENERAL

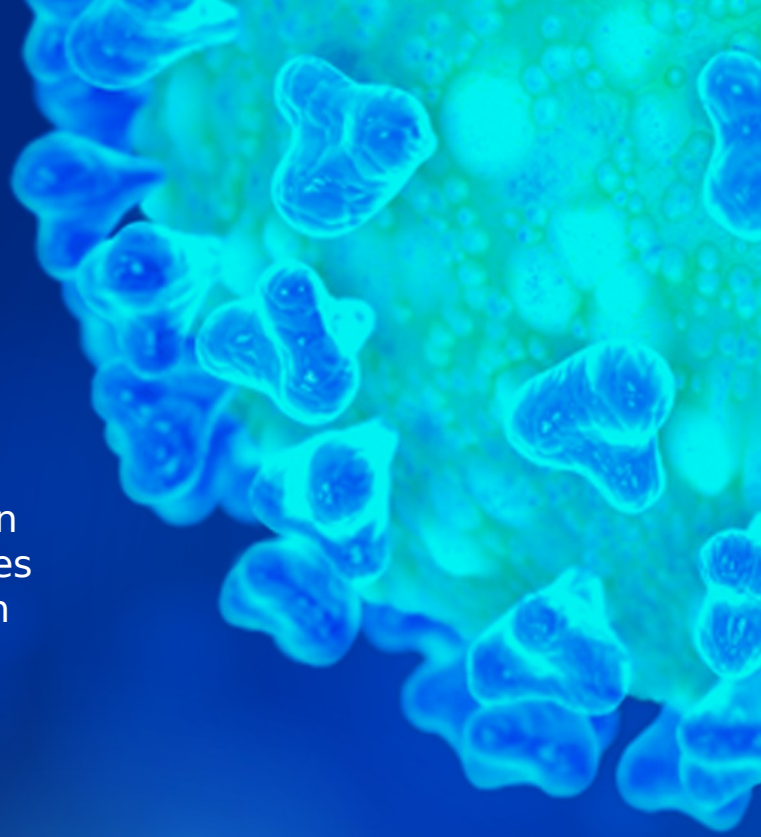

COVID-19

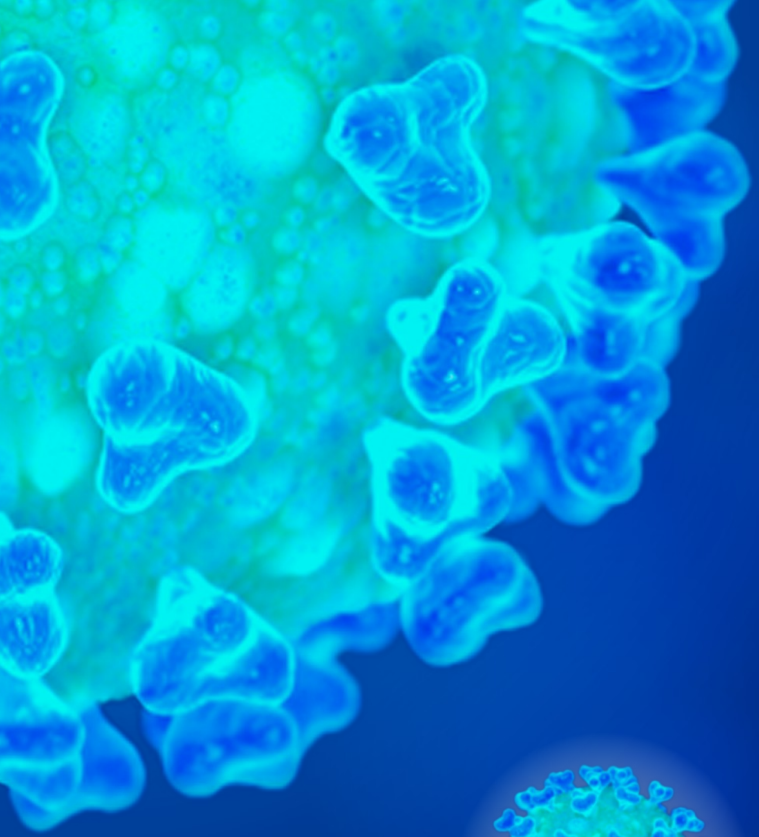

COVID-19 is an infectious disease caused by the recently found virus known as SARS-CoV-2 (or coronavirus). Before the outbreak originated in Wuhan, China on December 2019, there was no information about this virus

HISTORY

The oldest common ancestor of coronavirus has been dated as far back as the 9th century BC. Some studies published in 1990 specified the most recent common ancestors as follows:

- Betacoronavirus: 3300 BC
- Deltacoronavirus: 3000 BC
- Gammacoronavirus: 2800 BC
- Alphacoronavirus: 2400 BC

ABOUT CORONAVIRUS

You could enter a subtitle here if you need it

SYMPTOMS OF COVID-19

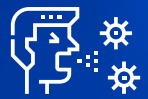

HIGH FEVER

The body temperature can exceed 37.3 Celsius degrees or 99 Fahrenheit degrees

TIREDNESS

The body feels completely tired and without energy to perform normal tasks

DRY COUGH

Irritation and constant coughing without expelling any mucus

MAYBE YOU NEED TO DIVIDE THE TEXT

PEOPLE

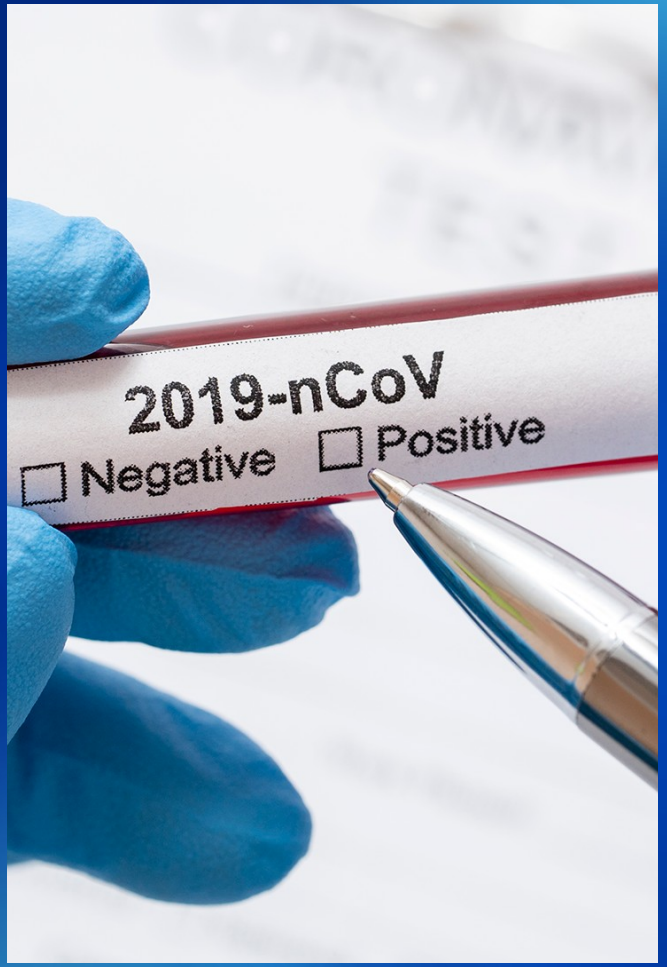

This disease can spread from person to person through small droplets from the nose or the mouth when the infected person coughs or exhales

SURFACES

These small droplets land on surfaces, which means any person that touches these surfaces and then their eyes, nose or mouth can become infected

ASYMPTOMATIC PEOPLE

Many people infected with COVID-19 show mild symptoms, especially during the first stages of the disease. Thus, you can still catch the disease from an infected person who only has a mere cough and does not feel ill

INFOGRAPHICS

TIREDNESS
The body feels completely tired, without energy

HIGH FEVER
The body temperature can exceed 37.3 Celsius degrees

DRY COUGH
Constant coughing without expelling any mucus

DIFFICULTY BREATHING
Breathing actually feels more difficult

WHAT TO DO IF YOU HAVE SYMPTOMS

STEP 01

You have symptoms or have been in an infected area

STEP 02

Call the designated phone number for your region

STEP 03

You will be given a home test over the phone

WHAT TO DO IF YOU HAVE SYMPTOMS

STEP 04

Patiently wait for the results of the test

STEP 05

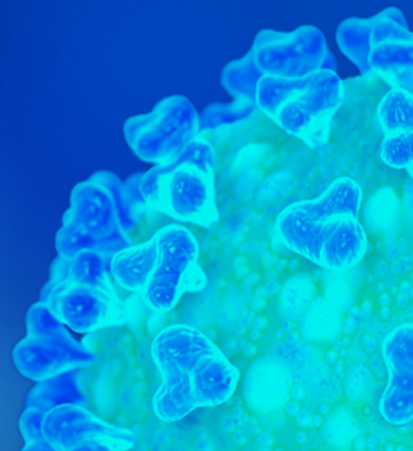

Follow the instructions provided by the doctor

ABOUT 80% OF
PEOPLE RECOVER
FROM THIS DISEASE
WITHOUT NEEDING
SPECIAL
TREATMENT

SOME NUMERICAL DATA

3000+

Reported cases in Spain as of March 2020

3.4%

Global death rate of this novel coronavirus disease

THIS IS A MAP

CDC warns against non-essential travel

Confirmed cases

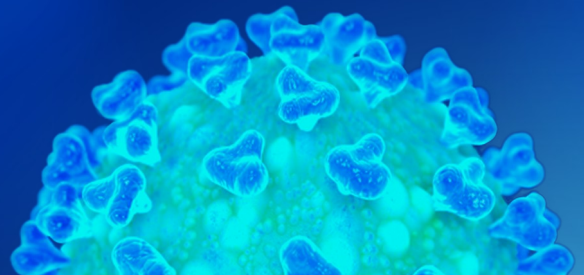

5 COUNTRIES WITH THE HIGHEST NUMBER OF CASES

	CONFIRMED	DEATHS
CHINA	80.000+	3,162
ITALY	12,462	827
IRAN	10,075	291
SOUTH KOREA	7,869	12
SPAIN	3,003	84

18,511
Reported cases of COVID-19 in Europe as of March 2020
118,387
Reported cases of COVID-19 globally as of March 2020

12,000+

Reported cases in Italy, the highest number of all European countries

IATA COVID-19 FINANCIAL IMPACT

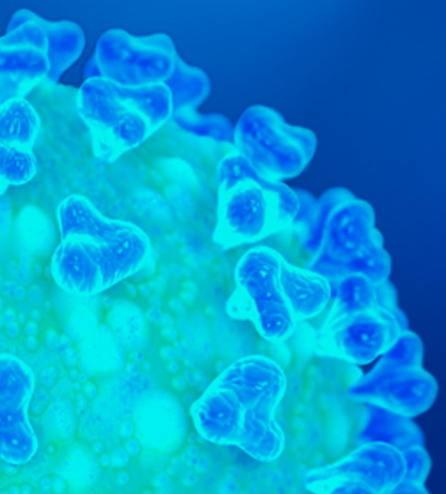

MARKET	IMPACT ON PASSENGER NUMBERS	IMPACT ON PASSENGER REVENUES
Australia, China, Japan, Malaysia, Singapore, South Korea, Thailand, Vietnam	-23%	-$49.7 billion
Austria, France, Italy, Germany, Netherlands, Norway, Spain, Switzerland, Sweden, the United Kingdom	-24%	-$37.3 billion
Rest of Europe	-9%	-$6.6 billion
Bahrain, Iraq, Iran, Kuwait, Lebanon, the United Arab Emirates	-23%	-$4.9 billion
Rest of Middle East	-9%	-$2.3 billion
Canada and US	-10%	-$21.1 billion

03

PREVENTION MEASURES

You could enter a subtitle here if you need it

ANTIBIOTICS DO NOT WORK AGAINST CORONAVIRUS

PROTECTING YOURSELF AND PREVENTING THE SPREAD OF THE DISEASE

Wash your hands with an alcohol-based sanitizer or with soap and water

Keep a distance of at least 1 meter between yourself and anyone who coughs or sneezes

Try your best not to touch your eyes, your nose and your mouth

Cover your mouth and your nose with your bent elbow or a tissue when coughing

Seek medical attention if you have difficulty breathing and a high fever

Follow the directions of your national or local health authorities

PROTECTION MEASURES FOR PEOPLE THAT ARE IN OR VISITED INFECTED AREAS

01

Stay home if you do not feel well, even if you feel mild symptoms such as headaches, slight fever and a runny nose

02

If you need to go out (for example, to buy food or supplies), wear a mask to minimize the risk of infecting others

03

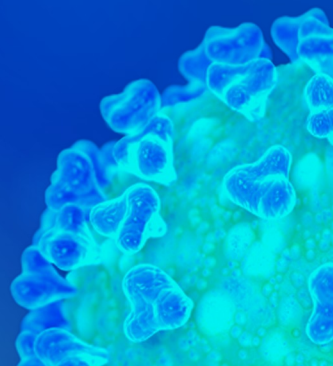

If you have difficulty breathing and/or a high fever, seek medical advice as soon as possible

04

Call your provider and inform them of any recent travel, especially to countries with reported cases

HOW TO USE A MASK

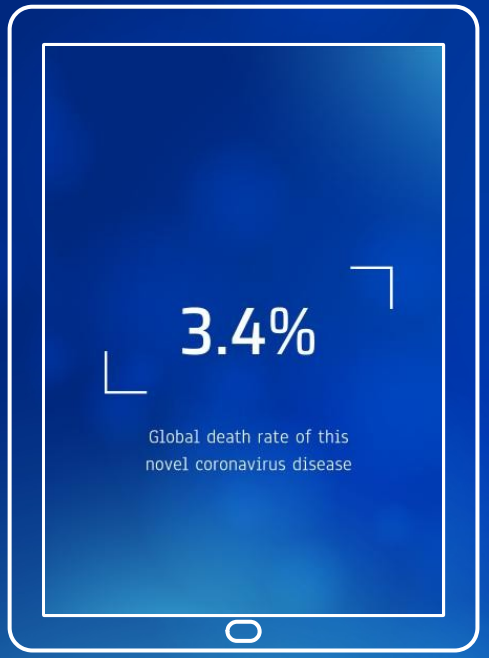

- Before wearing a mask, wash your hands with an alcohol-based disinfectant or with soap and water.
- Cover your mouth and nose with the mask and make sure the mask is firmly pressed against your face.
- Do not touch the mask while you are wearing it; if you do, wash your hands with an alcohol-based disinfectant or with soap and water afterward.
- Replace the mask as soon as it gets wet and do not reuse disposable masks.
- Remove the mask from behind (do not touch its front side); throw it away in a closed container and then wash your hands with an alcohol-based disinfectant or with soap and water.
