

Design Process Infographic S

Here is where this template begins

Design Process Infographics

Design process explained

01

Understanding

Jupiter is the biggest planet in the Solar System

02

Brainstorming

Neptune is the eighth planet from the Sun

03

Prototyping

Saturn has a high number of moons, like Jupiter

04

Evaluating

Despite being red, Mars is actually a cold place

05

Execution

Earth is the only planet known to harbor life

06

Improving

The Sun is the star at the center of the Solar System

Design Process Infographics

Benefits of visualizing the design stages

Importance of structured design process

Jupiter is a gas giant and the biggest planet in the Solar System. It's the fourth-brightest object in the night sky

Easier scalability

01

Mercury is close to the Sun

Risk management

03

Venus has a toxic atmosphere

Consistency quality

02

Earth is the third planet from the Sun

Enhanced clarity

04

Despite being red, Mars is very cold

Design Process Infographics

Research stage in design process

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot, even hotter than Mercury, and its atmosphere is extremely poisonous. It's the second-brightest natural object in the night sky after the Moon

User needs

Performance

Sun is the star at the center

Relevance

Moon is Earth's only satellite

01

Stage 1

Mercury is a small planet

03

Stage 3

Saturn is the ringed planet

05

Stage 5

Earth is the planet with life

02

Stage 2

Mars is full of iron oxide dust

04

Stage 4

Jupiter is a huge gas giant

06

Stage 6

Neptune is far away from us

Design Process Infographics

Frequently used infographics layout

01

Useful bait

Mercury is small planet

02

Timeline

Venus is a hot planet

03

Roadmap

We all live on earth

04

Versus/comparison

Mars is made of basalt

Design Process Infographics

Brainstorming •

Venus has a beautiful name, but also high temperatures

Outcome

Venus has a toxic atmosphere

01 •

• Research and analysis

Earth is the third planet from the Sun and has life

Outcome

Earth is the planet with life

• 02

Concept development •

Neptune is the fourth-largest planet in the Solar System

Outcome

Neptune is far away from us

03 •

• Concept evaluation

Jupiter is a gas giant and has around eighty moons

Outcome

Jupiter is a huge gas giant

• 04

Conceptualization

Design Process Infographics

Brainstorming session

Devine the objective

Prepare materials

Discussion started

Summarize ideas

Tips for effective brainstorming

Time
management

Pluto is now
considered a
dwarf planet

Use visual
aids

Ceres is located
in the main
asteroid belt

Record
everything

The Moon is
Earth's only
natural satellite

	S	W	O	T
Ideas 1	Mercury is small	Venus is very hot	Earth has life	Mars is very cold
Ideas 2	Jupiter is big	Saturn has rings	Neptune is far	Sun is the star

Design Process Infographics

Explanation of wireframing process

Tools and software for wireframing

Software 1

Neptune is the eighth planet from the Sun

VS

Software 2

Pluto is now considered a dwarf planet

VS

Software 3

The Moon is Earth's only natural satellite

Design Process Infographics

Resource allocation for idea generation

Design Process Infographics

Different layout techniques

Message

Balance

Rhythm

Unity

Emphasis

Design Process Infographics

Principal of design

Jupiter is a gas giant and the biggest planet in the Solar System. It's the fourth-brightest object in the night sky. It was named after the Roman god of the skies and lightning

Scale/proportion

Saturn is a gas giant

Size

Divisions

Emphasis

Mars is made of basalt

Color

Shape

Unity/harmony

Mercury is very small

Rhythm

Design Process Infographics

01

02

03

04

05

Design element	User feedback	Refinement	Check
Color	Mercury is the closest planet to the Sun	Mercury is the smallest planet of them all	✓
Typography	Venus has a toxic atmosphere	Venus is the second planet from the Sun	✓
Layout	Earth is the planet on which we all live	Earth is the only planet that harbors life	
Imagery	Jupiter is the biggest planet of them all	Jupiter was named after a Roman god	✓
Whitespace	Saturn was named after a Roman god	Saturn is a gas giant and has several rings	

Design Process Infographics

Design system

Earth is the third planet from the Sun and the only one that harbors life in the Solar System. All humans live on this planet

Color palette for brand consistency

Structured layout and grid system

Reusable UI components and elements

Detailed typography guidelines

Consistent iconography for clear visual

Brand voice and tone guidelines

Design guidelines

01

Accessibility

Mercury is a small planet

02

Consistency

Earth is the planet with life

03

Usability

Mars is full of iron oxide dust

04

Scalability

Jupiter is a huge gas giant

Design Process Infographics

Accessibility in design

Saturn is a gas giant and has several rings. It's composed mostly of hydrogen and helium. It was named after the Roman god of wealth and agriculture

Example practice

- Sun is the star at the center of the Solar System
- The Moon is Earth's only natural satellite

01

Alignment

Mercury is a small planet

02

Color

Earth is the planet with life

03

Contrast

Jupiter is a huge gas giant

04

Spacing

Mars is full of iron oxide dust

05

Size

Venus has a beautiful name

06

Hierarchy

Neptune is far away from us

Design Process Infographics

Project management in design			
Week 1	Week 2	Week 3	Week 4
Mercury is the smallest planet of them all	Venus has a beautiful name, but also high temperatures	Earth is the third planet from the Sun and has life	Saturn is the second-largest planet in the Solar System

Design Process Infographics

90%

User satisfaction

Despite being red, Mars is actually a cold place. It's full of iron oxide dust, which gives the planet its reddish cast

KPI

01

Usability

Mercury is the smallest planet of them all

02

Engagement

Jupiter is the biggest planet of them all

03

Accessibility

Earth is the only planet that harbors life
