SN	CRSCODE	QUESTION	OPTION A	OPTION B	OPTION C	OPTION D	ANS
1	ECO356	A ____ rela	linear	multiple	modelling	All of the	A
2	ECO356	The two categories exist to alleviate multicollinearity problems; the direct attempts to improve the four conditions responsible for the reliability of the regression estimates, and ___	the simple	the indir	estimates	direct met	B
3	ECO356	A further v	variables	models	samples	None of th	A
4	ECO356	Transform	samples	variables	values	size	C
5	ECO356	The inhere	model	slope grad	intercept	slope coeff	D
6	ECO356	The constr	relationshi	models	equations	All of the	A
7	ECO356	The knowl	modelling	simple reg	regression	None of th	C
8	ECO356	Existing pr	test	model	equations	variable	B
9	ECO356	_____ test	Spearman	Chi square	f	t	A
10	ECO356	Goldfeld a	Multiple re	multicollin	heterosced	autocorrel	C
