ENG491

Question

What determines the difference between psycholinguistics and psychology of language is the _____

Answer

Focus

Question

The basic interest of psycholinguistics is the _____

Answer

Human language in relation to the human mind

Question

The focus of the psychology of language is focused on _____

Answer

Human behaviour in relation to language

Question

Language can also be tactile, this means that we can express ourselves through _____

Answer

Touch

Question

In the human cognition processing, the stage where language acquisition is no longer automatic is known as ____

Answer

Critical stage

Question

When you have a word right at the edge of your mind but cannot seem to produce it, whether in writing or speech, it is described as ____

Answer

Tip of the tongue phenomenon

Question

When you intend to say 'she said' and end up saying 'see shed', you will call it ____

Answer

Slip of the tongue

Question

Tip of the tongue phenomenon is a ____ process

Answer

Speech production

Question

Psycholinguistics helps to reveal to us the practical link of language to our lives through ____

Answer

Slips of the tongue

Question

The essential focus of psycholinguistics is that language usage is rooted in _____

Answer

The human mind

Question

Discreteness feature shows that each phonetic element of a language is ____

Answer

Distinct

Question

Language is a means of transmitting human practices otherwise known as _____

Answer

Culture

Question

A characteristic of language identified by Yule that shows it does not have actual referent in real life when used to describe a thing is ____

Answer

Arbitrariness

Question

The feature of language that shows that it can refer to the past is called ____

Answer

Displacement

Question

In linguistic structures, what is used to indicate ungrammaticality is ____

Answer

Asterisk

Question

The slip of tongue phenomenon gives us an idea of what happens in the ____ process

Answer

Assemblage

Question

Language acquisition should naturally be grouped as a psycholinguistic ____

Answer

Process

Question

There are _____ psycholinguistic processes that have been identified by scholars

Answer

Three

Question

Psycholinguistics geneology can be traced to ____

Answer

18th century

Question

The field that studies how language relates to the human mind is known as ____

Answer

Psycholinguistics

Question

What determines the difference between psycholinguistics and psychology of language is the _____

Answer

Focus

Question

The basic interest of psycholinguistics is the _____

Question

Hutchinson and Waters (1987) summarized the factors affecting ESP course design to include the following, except

Answer

Aim and objectives

Question

The following are types of syllabus in ESP, except

Answer

Office syllabus

Question

In addition to specifying the content of learning, a syllabus provides a rationale of

Answer

How content should be selected and ordered

Question

The field of curriculum studies in ESP refers to the study of

Answer

All of the above

Question

Training ESP teachers requires

Answer

Provision of knowledge and tools to deal with students' special field of study

Question

Whose job is it to teach ESP?

Answer

EFL and content teachers with special training

Question

All of the following attempted the categorizations of ESP, except

Answer

Stevens (1921)

Question

Which of the following is not a reason for the evolution of ESP?

Answer

Language contact

Question

ESP is _____

Answer

Learner-centred

Question

According to Hutchinson and Waters (1987), syllabus refers to _____

Answer

What is to be learnt with some indication of the order in which the items should be learnt

Question

_____ are the most concerned in the definition of needs assessment in ESP.

Answer

The teachers

Question

Some ESP projects that were developed in the 1990s include the following, except

Answer

SOCBERSPEAK

Question

The following features are common to ESP, except

Answer

Context of situation

Question

ESP courses are absolutely

Answer

All of the above

Question

Which of these is not an authority in ESP?

Answer

Achebe and Soyinka

Question

The relationship between ESP and ELT is that

Answer

One is a branch of the other

Question

ESP refers to teaching or studying English for

Answer

A particular career or business in general

Question

The concept of communicative competence led to the development of the following in ESP, except

Answer

Traditional grammar

Question

The Transformational Generative (TG) grammar was popularized by

Answer

Noam Chomsky

Question

The structural linguistics according to ESP specialists is

Answer

Descriptive

Question

Hutchinson and Waters (1987) summarized the factors affecting ESP course design to include the following, except

Answer

Aim and objectives

Question

The following are types of syllabus in ESP, except

Answer

Office syllabus

Question

In addition to specifying the content of learning, a syllabus provides a rationale of

Answer

How content should be selected and ordered

Question

The field of curriculum studies in ESP refers to the study of

Answer

All of the above

Question

Training ESP teachers requires

Answer

Provision of knowledge and tools to deal with students' special field of study

Question

Whose job is it to teach ESP?

Answer

EFL and content teachers with special training

Question

All of the following attempted the categorizations of ESP, except

Answer

Stevens (1921)

Question

Which of the following is not a reason for the evolution of ESP?

Answer

Language contact

Question

ESP is _____

Answer

Learner-centred

Question

According to Hutchinson and Waters (1987), syllabus refers to _____

ENG421

Question

The new Verb Phrase in the Minimalist Program is now ____

Answer

TP

Question

Trace Theory is essentially a _____ theory

Answer

Movement

Question

The main focus of the Trace Theory is that a moved item must ____

Answer

Leave a trace of itself

Question

The Determiner Phrase now represents the former ___ in the Minimalist Program.

Answer

Nominal Phrase

Question

S-Structure in GB replaced the _____ in Phrase Structure Grammar

Answer

Surface Structure

Question

What supplies elements that get projected as LF and PF in the Minimalist Program is _____

Answer

Spell Out

Question

PPT has this as a part of its structural make up

Answer

PS-rules and Lexicon

Question

D-Structure is an element of this Grammar

Answer

GB Syntax

Question

In the GB Syntax and the Minimalist Program, the two elements that they have in common in their structures are ____ and ____

Answer

PF and LF

Question

One of the ways that syntactic structures are usually presented in the process of analysing them is ____

Answer

Phrase diagram

Question

m-command stands for ____

Answer

maximal command

Question

FocP is the name of this element

Answer

Focus Phrase

Question

Minimalist Program is presented in a reduced form as ____

Answer

MP

Question

In the Minimalist Program, TP is ____

Answer

Tense Phrase

Question

Principle and Parameter Theory is shortened as ____

Answer

PPT

Question

When you use DP to describe a syntactic element, you are referring to ____

Answer

Determiner Phrase

Question

Complementiser Phrase can otherwise be presented as ____

Answer

CP

Question

In your study in this course, GB is the short form of ____

Answer

Government and Binding

Question

Transformational Generative Grammar is otherwise called ____

Answer

TGG

Question

A pre-requisite course for your ENG421 is ____

Answer

ENG222

EDU423

Question

To reduce subjectivity in essay test, the teacher must

Answer

write open ended items

Question

The highest level of Bloom's Taxonomy of the Cognitive domain is -----

Answer

Evaluation

Question

One of these is not a feature of the Affective domain

Answer

Manipulation

Question

For a child to comprehend, he/she is able to do the following except

Answer

analyse principles

Question

Bloom's Cognitive domain consist of all but one of these components

Answer

Sensory

Question

"Students will be able to explain how the brain helps the eye in vision" This objective is stated at which of Bloom's taxonomic level?

Answer

Analysis

Question

Educational objectives can be specified in the following levels except-----

Answer

Interpersonal level

Question

One of these scales possesses absolute zero point

Answer

Ratio

Question

Assignment of pupils into practical groups employs what type of educational scale

Answer

Nominal scale

Question

A test can perform the following functions except

Answer

determine the type of answers pupils supply

Question

One of these is NOT a test Organisation body in Nigeria

Answer

London GCE

Question

The Stanford-Binet version of the Binet-Simons Scale was developed in 1916 by

Answer

Louis Terman

Question

The Binet-Simons Intelligence Test was developed in the year

Answer

1904

Question

Which of these does not serve the purpose of summative evaluation?

Answer

classroom test

Question

A diagnostic evaluation can also be used to _____

Answer

assign pupils to subject groups like arts, science.

Question

An end of the year promotion examination in secondary school is an example of _____?

Answer

summative evaluation

Question

Which of these deals with the objectives and measuring of the set standard of a programme?

Answer

Evaluation

Question

Which of these statements does not apply to assessment

Answer

Assessment must always involve figures

Answer

school size

Question

Which of these statements is untrue

Answer

primary education is then only aspect of basic education which comprises a range of formal schooling offered to meet the learning needs of people aged 6-11 years

Question

The bringing of human and material resources together for effective and functional teaching and learning in schools is known as

Answer

educational administration

PED422

Question

If the child is faced with an inconsistent social world, then the child's ____ will become more and more idiosyncratic.

Answer

Schema

Question

Children's behaviour is directed by their cognitive ____ of the world.

Answer

Map

Question

____ therapy maintains that a real world exists beyond an individual's subjective view of the world.

Answer

Reality

Question

A most potent factor that underlie most misbehaviour is ____.

Answer

Discouragement

Question

____ theory predicts that certain personality characteristics – specifically high extraversion and high neuroticism – are related to less efficient conditionality.

Answer

Learning

Question

___ has formulated a theory that suggests that through genetic endowment some individuals are born with central and autonomic nervous system which affect their ability to learn from, or more properly to condition to, environmental stimuli.

Answer

Hans Eysenck

Question

___ points out that many undesirable types of behaviour are retained even though they may be unrewarding or actually detrimental:

Answer

Wolf

Question

___ states that compulsiveness in a ten year old might be explained by the hypothesis that parents frequently rewarded tendencies toward neatness early in life, particularly when the child was dependent on them and eager for their approval.

Answer

Biehler

Question

acknowledged the saying that 'there are no problem children, only problem parents' to show that it is parent's behaviour that causes problems in their children.

Answer

Pringle

Question

The child's goals of the misbehaviour which Dreukurs (1957) formulated include all except ____.

Answer

Family constellation

Question

____ period extends through late childhood to puberty.

Answer

Latency

Question

It is the primary ____ that teaches the basic psychological and social lessons to the young child and it supplies him with his initial models for appropriate and effective behaviour.

Answer

Institution

Question

___ is a long, quiet period of psychological development in which no major unconscious drives press the ego for satisfaction.

Answer

Latency

Question

___ is a characteristics (behaviours) associated with Fixations at Freudian Phallic Stage of Development.

Answer

Vain

Question

___ variable marks disturbed behaviour at early stage of development and to an infantile stage during periods of stress

Answer

Regression

Question

___ stresses the vital role of early childhood experiences in determining certain patterns of behaviour in the adult.

Answer

psychoanalysts

Question

___ warned that there is reason for serious concern when the number and seriousness of the child's behaviour problem deviate either above or below the norm for his age and not group.

Answer

Hurlock

Question

___ is the process of growing up into a human being, a process which necessitates contact with other people.

Answer

Socialisation

Question

which produces significant manifestation in almost every sphere of human activity

Answer

Oedipal complex

Question

One of the variables which mark disturbed behaviour is ____ to an infantile stage during periods of stress.

Answer

Regression

Question

If the child is faced with an inconsistent social world, then the child's ____ will become more and more idiosyncratic.

Answer

Schema

Question

Children's behaviour is directed by their cognitive ____ of the world.

Answer

Map

Question

____ therapy maintains that a real world exists beyond an individual's subjective view of the world.

Answer

Reality

Question

A most potent factor that underlie most misbehaviour is ____.

Answer
