TO ALL INTERNATIONAL INSTITUTIONS.
02/15/2024

We claim the sacrosanct right to self-determination, a right recognized even by the Charter of the United Nations, through a clear stance against the criminal policies of a stateless financial dome, led by a handful of unscrupulous debt money printers without guarantees, whose only values they are nihilistic relativism and the culture of death camouflaged by health and ecological do-goodism.

Despite the censorship and propaganda that has been in place for some time, which you now impose in an increasingly pervasive and effective way, you will face the consequences of your choices made without our consent.
We know your real motivations behind the suicidal war in Ukraine. We know your real motivations behind the war in Palestine.
We know your real motivations behind the wars in Africa.

We have chosen!
We are on the side of oppressed peoples of any ethnicity and religious faith.
We repudiate all wars because we are all brothers and sisters.

Our enemies are those who:
• with virtual money, they buy a debt that they force us to contract and use it to enslave us
• corrupt heads of state and destabilize governments
• they want a decimated, poor, weak population fed on genetically manipulated foods
• they cancel our human and social rights to fill us with the void of their sociopathic theories

We reject your criminal choices:
• to allocate billions of euros in armaments that you use in wars of extermination
• to cut billions of euros in welfare and healthcare
• to abandon the last to their fate
• to destroy the environment, territory and landscape with chemtrails and climate war.

We reject any hypothesis of world government perpetrated by supranational bodies whose aim is to kill Peoples' freedom by eradicating the millenary roots made up of different traditions and cultures.

We reject any attack on the dignity of Peoples due to a self-styled "New World Order" which pursues market logic, profit at all costs and population reduction.

You claim the right to represent us and impose on us the rules of supranational bodies that no one has elected (such as the World Economic Forum) therefore you will answer for every action taken against the People.

When you become useless to those who direct your actions today, YOU WILL BE LEFT ALONE in the face of your responsibilities and the betrayed People will judge you.

WE WANT TO BE ON THE RIGHT SIDE OF HISTORY AND THE SIDE OF THE TRUTH. NOW YOU MUST CHOOSE: EITHER WITH THE PEOPLE OR WITH EVIL AND GLOBALISTIC CRIMINALS.
THE DIGNITY AND HONOR OF THE PEOPLE ARE SACROSANT AND NO ONE WILL EVER BE ABLE TO BUY THEM.
