Medical center infographics

Medical center

Mars is full of iron oxide dust, which gives the planet its reddish cast

Mars is cold

The Moon is Earth’s only natural satellite

Ceres is located in the main asteroid belt

Venus is hot

Earth is the third planet from the Sun

Mercury is the closest planet to the Sun

Saturn is a gas giant and has several rings

Jupiter is big

Neptune is very far away from us

Venus has a toxic atmosphere

Mars was named after a god

This template has been created by **Slidesgo**

Medical center infographics

Medical center specialties

Mercury

1. Earth is the planet with life
2. Venus has high temperatures
3. Saturn has beautiful rings

Ceres

1. Saturn is the ringed planet
2. Mercury is a very small planet
3. Ceres is in the main asteroid belt

Pluto

1. Jupiter is a huge gas giant
2. Saturn was named after a Roman god
3. Neptune is far away from us

Neptune

1. Ceres is in the main asteroid belt
2. Pluto is considered a dwarf planet
3. Saturn is the ringed planet

Additional services

Mars is made of basalt

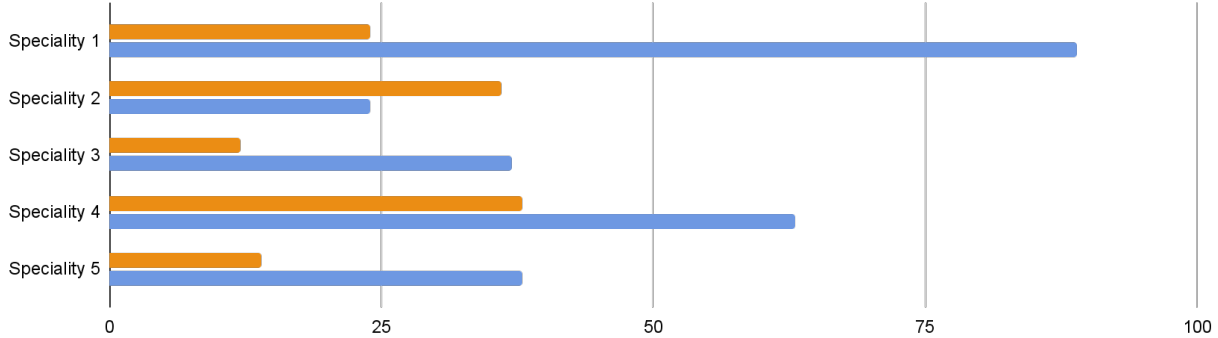

Jupiter is a big planet

Saturn is the ringed planet

This template has been created by **Slidesgo**

Medical center infographics

20XX

Saturn is a gas giant and has several rings

20XX

Pluto is now considered a dwarf planet

Follow the link in the graph to modify its data and then paste the new one here. **For more info, click here**

Conclusions

Speciality 1

Mars is actually a cold place

Speciality 2

Saturn has beautiful rings

Speciality 3

Jupiter is a huge gas giant

Speciality 4

Venus has high temperatures

Speciality 5

Neptune is far away from us

This template has been created by **Slidesgo**

Medical center infographics

Goals

- Mercury is the closest planet to the Sun
- Neptune is the farthest planet from the Sun
- Pluto is now considered a dwarf planet

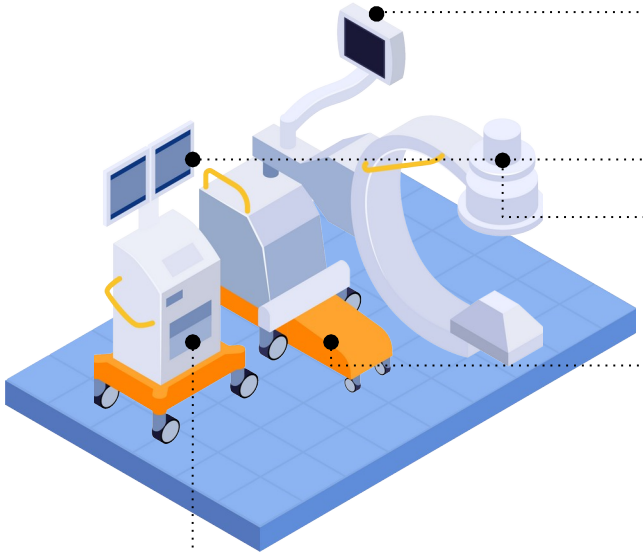

New features

Mars is made of basalt

Saturn has nice rings

Jupiter is a gas giant

The machine

Saturn has rings

Saturn is a gas giant and has several rings

Jupiter is big

It is the biggest planet in the Solar System

Earth has life

Earth is also known as the Blue Planet

Mars is cold

Despite being red, Mars is actually a cold place

Venus is very hot

Venus has a beautiful name, but also high temperatures

This template has been created by **Slidesgo**

Medical center infographics

Floor 1

Floor 2

Earth has life

It is the third planet from the Sun

Mars is cold

Mars is full of iron oxide dust

Venus is very hot

Venus has a toxic atmosphere

Mercury is small

It is the closest planet to the Sun

Saturn has rings

Saturn was named after the Roman god of wealth and agriculture

This template has been created by **Slidesgo**

Medical center infographics

Access by helicopter

Jupiter is the biggest planet of them all 1

Earth is the third planet from the Sun 2

Mercury is the smallest planet of them all 3

Access by ambulance

Ceres is in the main asteroid belt 1

Venus is the second planet from the Sun 2

This template has been created by **Slidesgo**

Medical center infographics

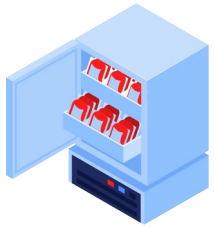

Venus is a hot planet

We all live on Earth

1

- Mars is actually a cold place
- Pluto is now a dwarf planet
- Jupiter is a huge gas giant

2

- Earth is the planet with life
- Mars is full of iron oxide dust
- Saturn is the ringed planet

3

- Neptune is far away from us
- Saturn has beautiful rings
- Venus has a toxic atmosphere

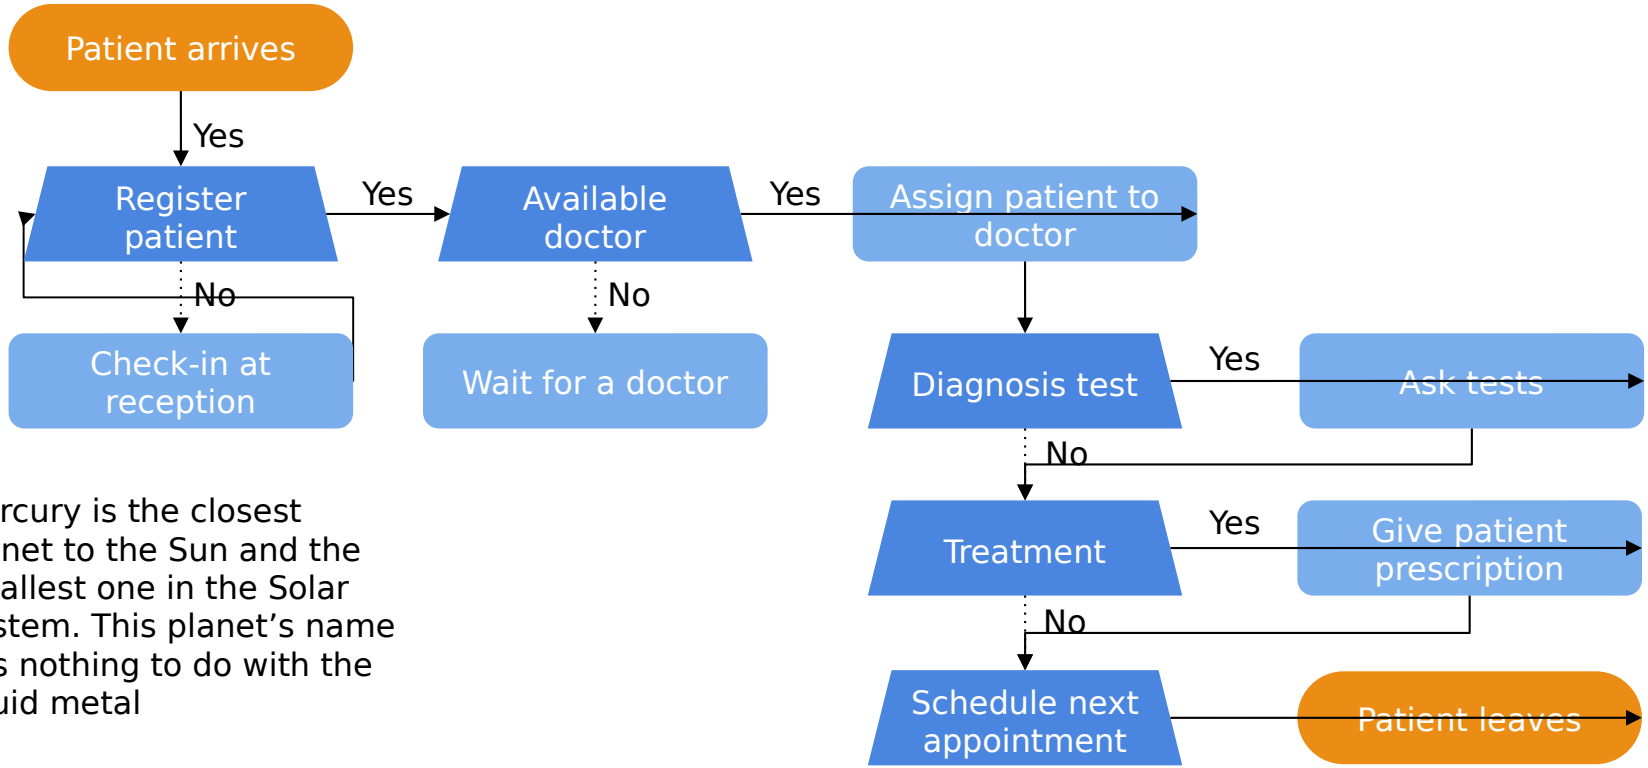

4

- Ceres is in the main asteroid belt
- Neptune is very far away from us
- Venus has high temperatures

This template has been created by **Slidesgo**

Medical center infographics

Mercury is the closest planet to the Sun and the smallest one in the Solar System. This planet's name has nothing to do with the liquid metal

This template has been created by **Slidesgo**

Medical center infographics

Earth is the planet on which we all live

Speciality 1

Jupiter doesn’t have a solid surface

Speciality 2

Earth is also known as the Blue Planet

Speciality 3

Saturn is composed of hydrogen and helium

Speciality 4

Venus has extremely high temperatures

Speciality 5

Despite being red, Mars is a cold place

Speciality 6

Saturn is a gas giant and has several rings

Speciality 7

Mars is full of iron oxide dust

Speciality 8

Medical center specialities

This template has been created by **Slidesgo**

Medical center infographics

Venus is the second planet from the Sun. It’s terribly hot, even hotter than Mercury

Venus

Mercury is the closest planet to the Sun and the smallest of them all

Mercury

Earth is the third planet from the Sun and the only one that harbors life

Earth

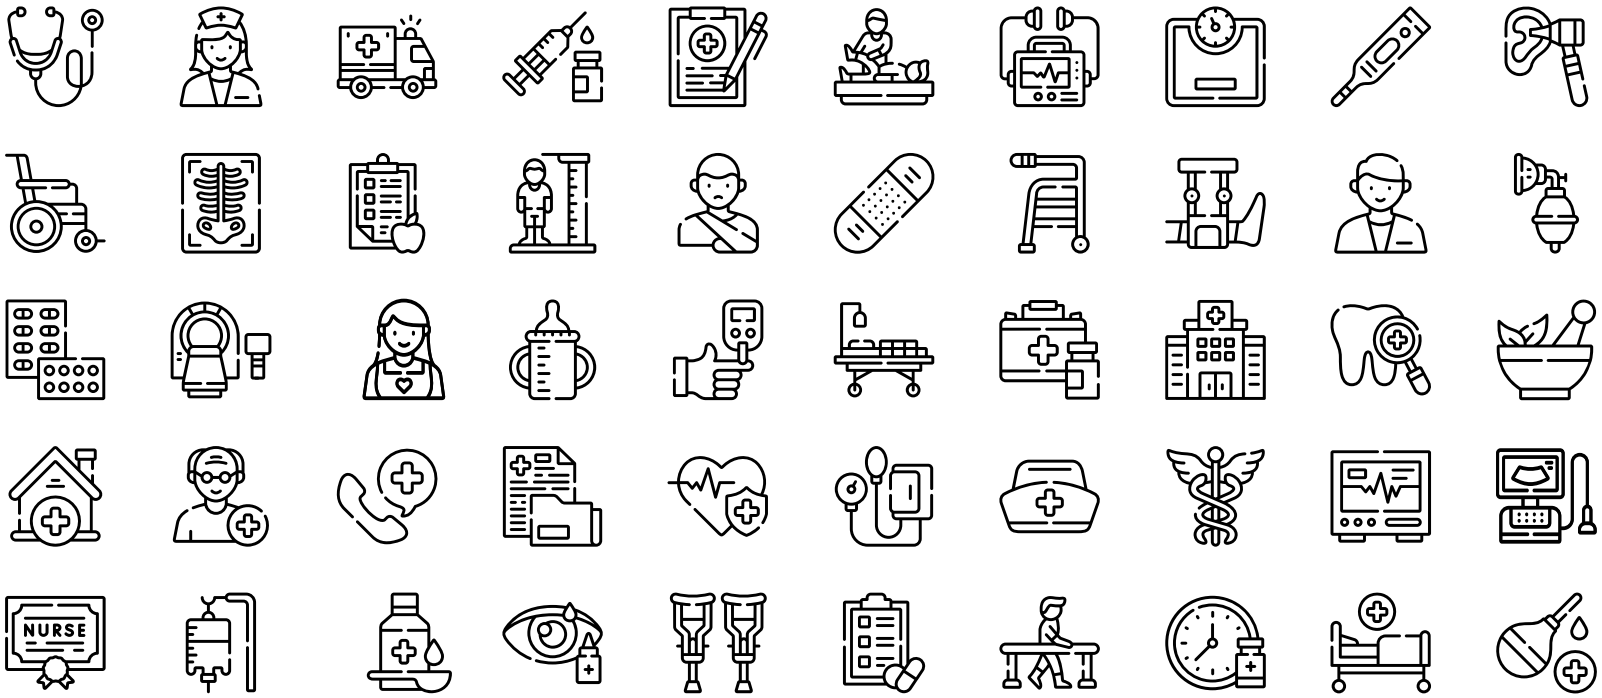

It is full of iron oxide dust, which gives the planet its reddish cast

Mars

Instructions for use (premium users)

As a Premium user, you can use this template without attributing **Slidesgo**

You are allowed to:

- Modify this template
- Share this template in an editable format
- Use it for both personal and commercial projects
- Hide or delete the “Thanks” slide and the mention to Slidesgo in the credits

You are not allowed to:

- Sublicense, sell or rent any of Slidesgo Content
- Use any of the elements that are part in a separated way
- Distribute Slidesgo Content unless it has been expressly authorized by Slidesgo
- Register any of the elements as a trademark or logo in an intellectual property registry

For more information about editing slides, please read our **FAQs** or visit our **blog**

Infographics

You can add and edit some **infographics** to your presentation to present your data in a visual way.

01 Choose your favourite infographic and insert it in your presentation using Ctrl C + Ctrl V or Cmd C + Cmd V in Mac

02 Select one of the parts and **ungroup** it by right-clicking and choosing “Ungroup”

03 **Change the color** by clicking on the paint bucket

04 Then **resize** the element by clicking and dragging one of the square-shaped points of its bounding box (the cursor should look like a double-headed arrow). Remember to hold Shift while dragging to keep the proportions

05 **Group** the elements again by selecting them, right-clicking and choosing “Group”

06 Repeat the steps above with the other parts and when you’re done editing, copy the end result and paste it into your presentation

07 Remember to choose the **“Keep source formatting”** option so that it keeps the design. For more info, please visit **our blog**
