

A close-up photograph of a person's hands playing a light-colored wooden electric guitar. The person is wearing a brown leather jacket and a large, ornate ring on their finger. The guitar has a dark fretboard and black knobs. In the background, a wooden cabinet is visible. At the bottom of the frame, a silver guitar pedal with various knobs and jacks is shown. The text 'MUSIC LESSON' is overlaid on the right side of the image in a large, white, sans-serif font. Below the title, the text 'Here is where your presentation begins' is written in a smaller, dark grey font. The image is decorated with abstract teal and orange shapes in the corners.

# MUSIC LESSON

Here is where your  
presentation begins

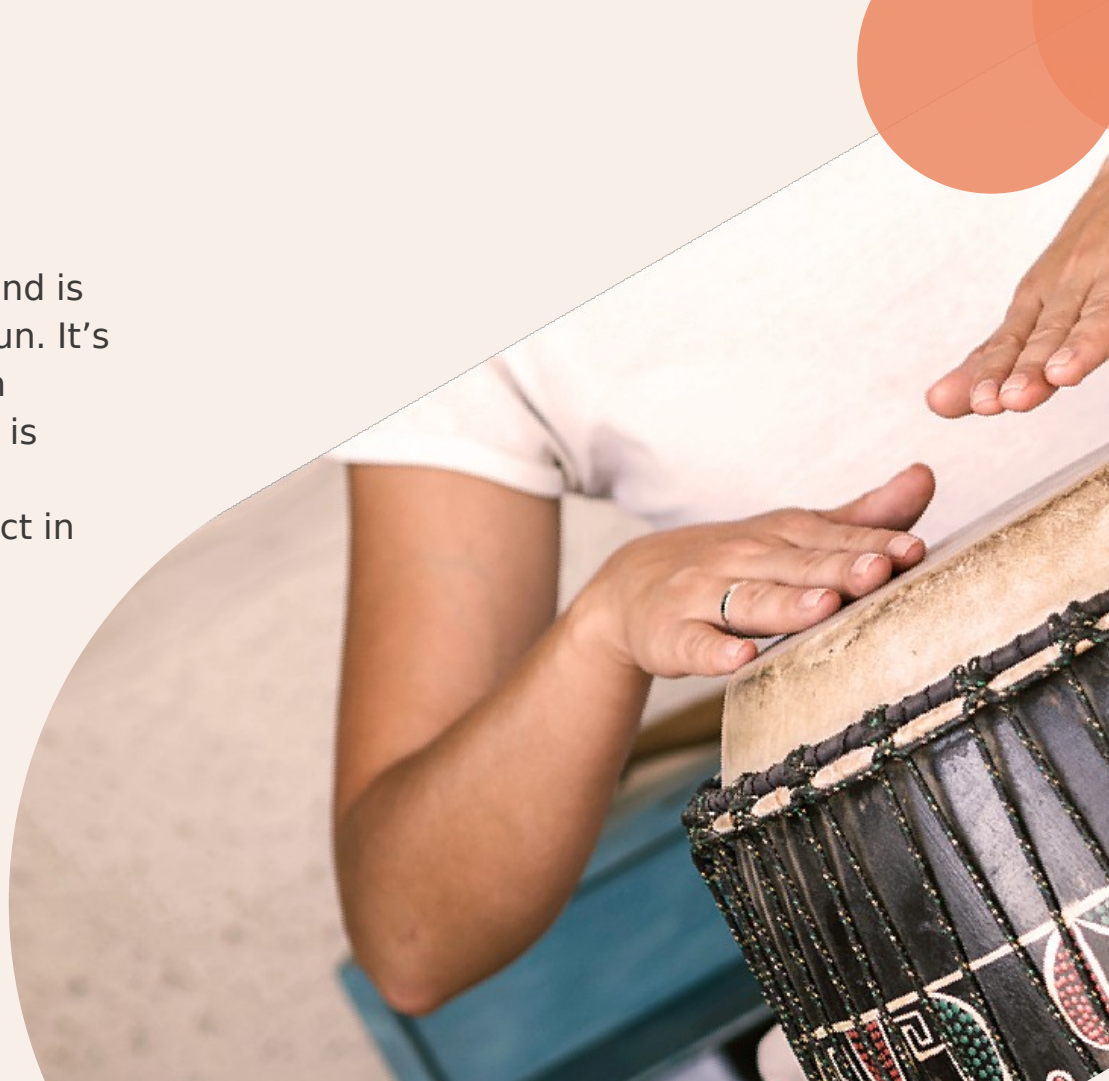

Here's what you'll find in this Slidesgo template:

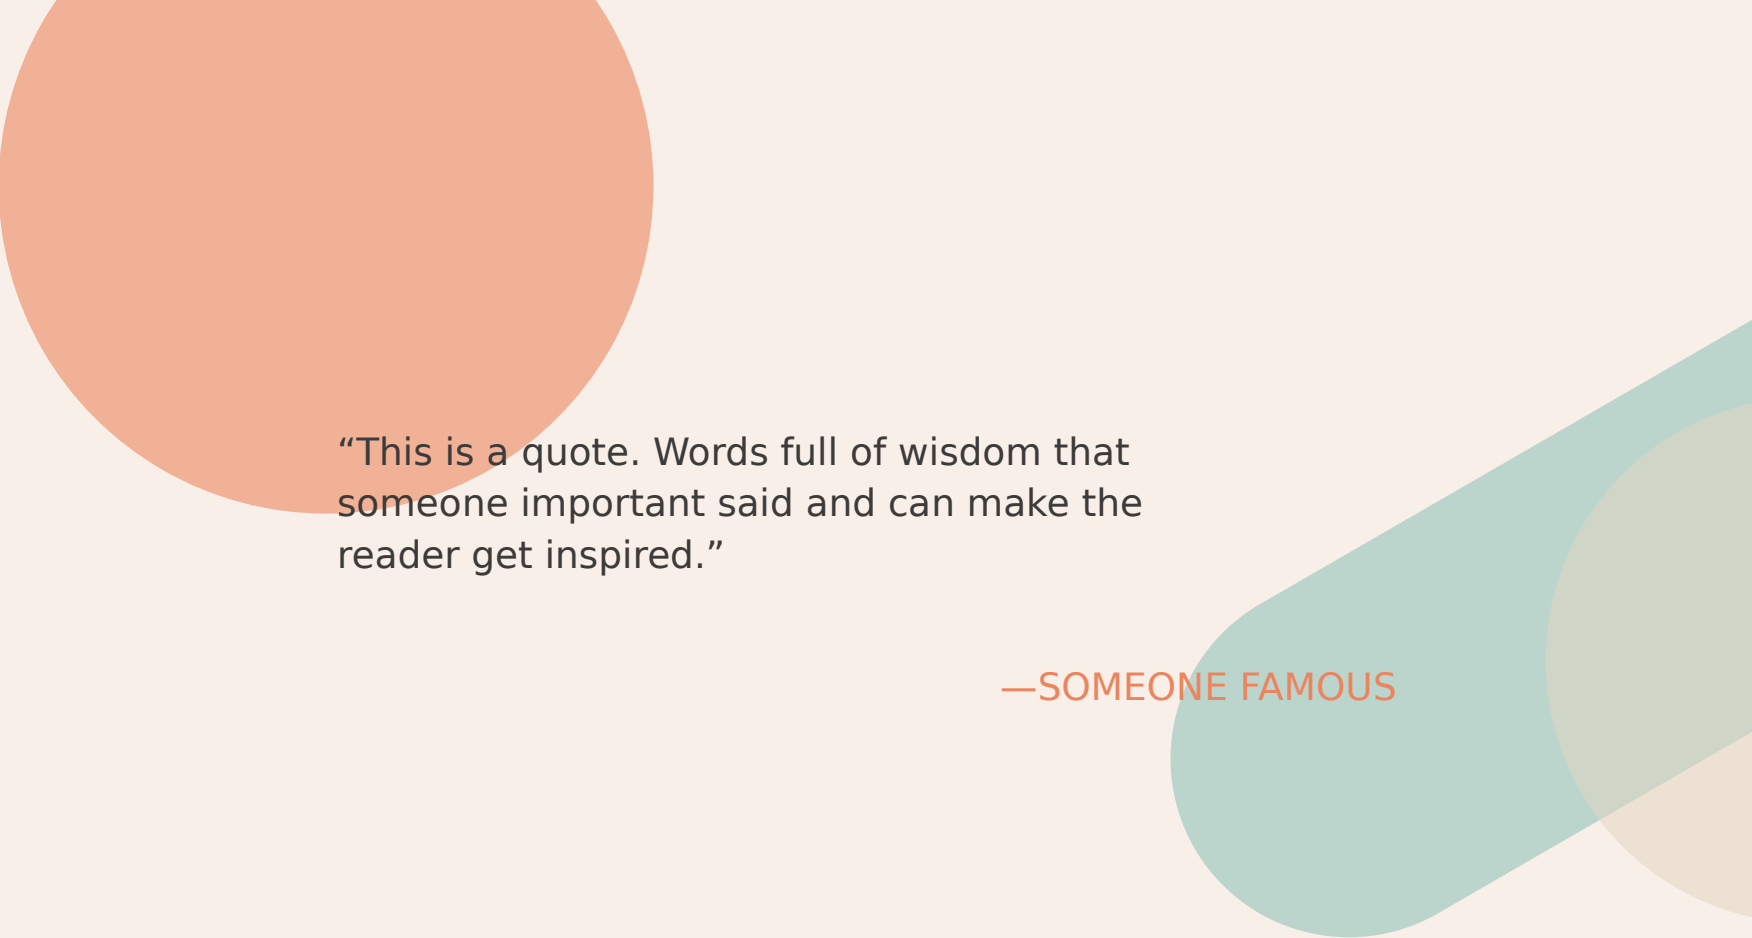

1. A slide structure based on a lesson, which you can easily adapt to your needs. For more info on how to edit the template, please visit [Slidesgo School](#) or read our [FAQs](#).
2. An assortment of pictures to use in the presentation can be found in the [a lternative resources](#) slide.
3. A [thanks](#) slide, which you must keep so that proper credits for our design are given.
4. A [resources](#) slide, where you'll find links to all the elements used in the template.
5. [Instructions for use](#).
6. Final slides with:
  7. The [fonts and colors](#) used in the template.
  8. A [selection of illustrations](#). You can also customize and animate them as you wish with the online editor. Visit [Storyset](#) to find more.
  9. More [infographic resources](#), whose size and color can be edited.
  10. Sets of [customizable icons](#) of the following themes: general, business, avatar, creative process, education, help & support, medical, nature, performing arts, SEO & marketing, and teamwork.

# VENUS

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury—and its atmosphere is extremely poisonous. It's the second-brightest natural object in the night sky after the Moon

“This is a quote. Words full of wisdom that someone important said and can make the reader get inspired.”

—SOMEONE FAMOUS

# SECTION TITLE

You can write a subtitle here

# WHAT IS THIS TOPIC ABOUT?

Here you could give a brief description of the topic you want to talk about. For example, if you want to talk about Mercury, you could say that it's the closest planet to the Sun and the smallest one in the Solar System. It's only a bit larger than our Moon, and its name has nothing to do with the liquid metal, since it was named after the Roman messenger god, Mercury

## MERCURY

Mercury is the closest planet to the Sun and the smallest one in the Solar System

Yes, this is the ringed one. It's a gas giant, composed mostly of hydrogen and helium

## SATURN

## MARS

Despite being red, Mars is actually a cold place. It's full of iron oxide dust

Venus has a beautiful name and is the second planet from the Sun

## VENUS

A close-up photograph of a person's hands playing a piano. The piano has a light-colored wooden frame and white keys with black accidentals. A sheet of music with various notes and clefs is visible on the left. A large, semi-transparent teal circle is centered over the image, containing the text 'AWESOME WORDS' in white, bold, sans-serif capital letters. The background is softly blurred, showing a window with light coming through.

AWESOME  
WORDS

## MERCURY

Mercury is the closest planet to the Sun and the smallest one in the Solar System. It's only a bit larger than our Moon

It's a gas giant and the biggest planet in our Solar System. Jupiter is the fourth-brightest object in the sky

## JUPITER

THIS IS A TABLE

|         | 1938 | 1940 | 1942 | 1944 | 1946 |
|---------|------|------|------|------|------|
| MERCURY | 12   | 23   | 26   | 34   | 36   |
| VENUS   | 123  | 444  | 321  | 235  | 452  |
| MARS    | 457  | 864  | 1000 | 567  | 678  |
| JUPITER | 34   | 76   | 125  | 97   | 76   |

9,200,000 km<sup>2</sup>

is the area covered by the Sahara

15 mm

is the average rainfall per year in the Atacama Desert

67,700 people

live in the Kharga Oasis

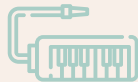

## MERCURY

Mercury is the closest planet to the Sun and the smallest one in the Solar System. It's only a bit larger than our Moon

## VENUS

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot, even hotter than Mercury

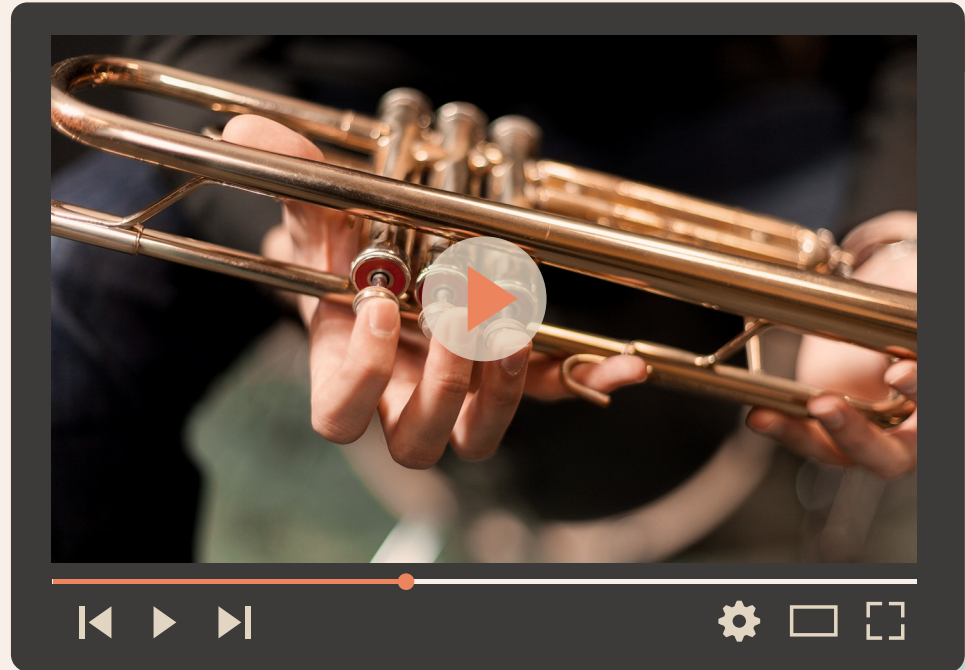

## JUPITER

It's a gas giant and the biggest planet in our Solar System. Jupiter is the fourth-brightest object in the sky

Despite being red,  
Mars is a cold place,  
not hot. It's full of iron  
oxide dust, which  
gives the planet its  
reddish

## MARS

Despite being red, Mars is actually a cold place. It's full of iron oxide dust

## JUPITER

It's a gas giant and the fourth-brightest object in the sky

## SATURN

Yes, this is the ringed one. It's a gas giant, composed of hydrogen and helium

## MERCURY

Mercury is actually the smallest planet in our Solar System

## NEPTUNE

Neptune is the fourth-largest planet in our Solar System and the farthest from the Sun

## VENUS

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot

## SATURN

Yes, this is the ringed one. It's a gas giant, composed of hydrogen and helium

## MERCURY

Mercury is the closest planet to the Sun and the smallest in our Solar System

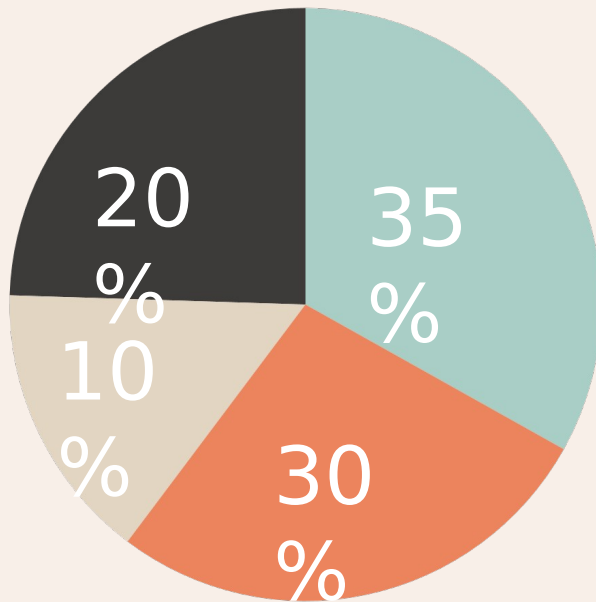

## NEPTUNE

Neptune is the fourth-largest planet in our Solar System and the farthest from the Sun

## MARS

Despite being red, Mars is actually a cold place. It's full of iron oxide dust

If you want to modify this graph, click on it, follow the link, change the data and replace it

## PROBLEM

Venus has a beautiful name and is the second planet from the Sun

## SOLUTION

Despite being red, Mars is actually a cold place. It's full of iron oxide dust

## JUPITER

Jupiter is the fourth-brightest object in the sky

1

2

## VENUS

Venus has a beautiful name, but it's terribly

## MERCURY

Mercury is the closest planet to the Sun

3

4

## SATURN

Saturn is composed of hydrogen and helium

## MARS

Despite being red, Mars is actually a cold place

5

6

## NEPTUNE

Neptune is the farthest planet from the Sun

## MERCURY

Mercury is the closest planet to the Sun and the smallest one in the Solar System. It's only a bit larger than our Moon

## VENUS

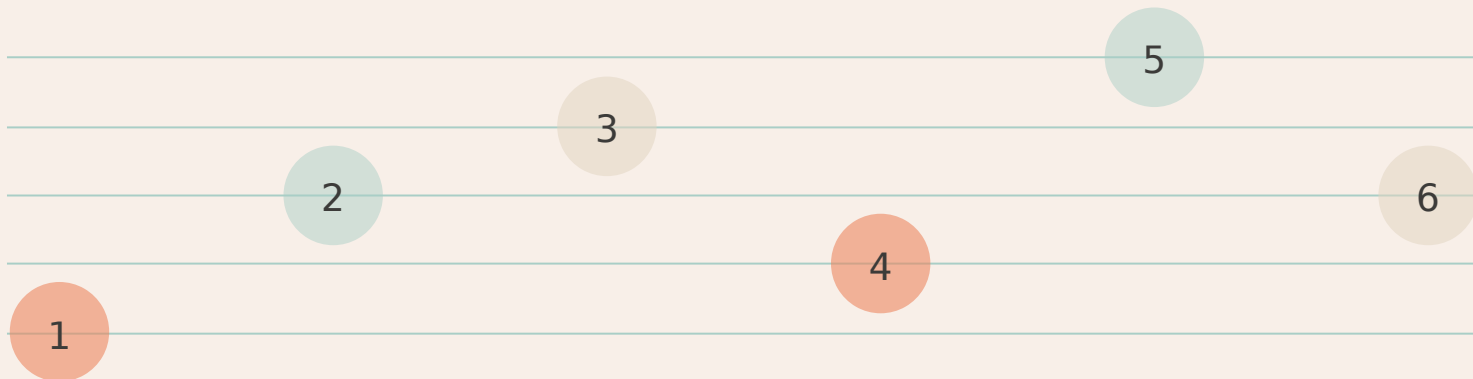

Venus has a beautiful name and is the second planet from the Sun

## JUPITER

Jupiter is a gas giant and the biggest planet in our Solar System

Mercury is the closest planet to the Sun, but does its name have anything to do with the liquid metal?

1    Mercury

3    Jupiter

5    Saturn

2    Mars

4    Venus

6    Neptune

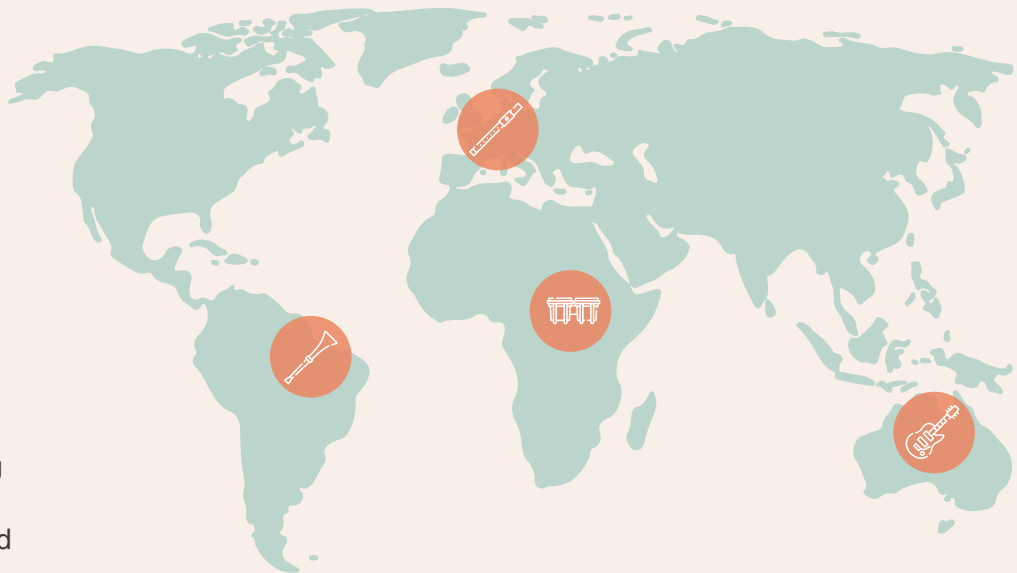

## JUPITER

Jupiter is the fourth-brightest object in the sky

## MARS

Despite being red, Mars is actually a cold place

## SATURN

Saturn is the ringed planet and a gas giant

## MERCURY

Mercury is the smallest planet in our Solar System

Mercury is the closest planet to the Sun,  
and Neptune is the farthest one.  
Calculate the distance between these two  
planets
