When **Detective Kim Stone** races to the crime scene, there is no body waiting for her: the paramedics are desperately trying to save the victim's life. But there was something very strange about the way the man was found, his arms raised above his head, his legs spread apart. When he dies on the way to the hospital, Kim is certain she's on the hunt for a killer... but all evidence at the scene has been destroyed.

The dead man, **Eric Gould**, seems ordinary, until the team dig into his past. As a teenager, he was locked away for attacking his girlfriend, and Kim suspects he was hurting his fiancé now. Was someone trying to stop history.....
